Education of Girls.

The authorities of Oxford University, England, are giving considerable attention to the subject of education as it relates to young ladies. It is contended that education as at present provided for females leaves them little or nothing to build upon after they are supposed to have finished their education. A writer very forcibly remarks:

"At present, as we take it, it is the want of a definite interest in some work or occupation of real moment which sets girls speculating about marriage at so early a period. It is not because she has a dread of being an old maid, or is longing to be 'settled in life,' or is discontented with her home, that the thoughts of a girl of eighteen or nineteen are so often turned to matrimonial contingencies. It is rather because she has no present object on which to expend her energies, and nothing to work upon with a view to any permanent benefit. With boys and young men it is the reverse. Life with them is very soon a reality, without any necessity for an early marriage. Men, as a rule, do not look forward to marrying until they are eight or ten years older than girls are, when they seriously contemplate it. Their business or their profession, that profession being more or less the continuation of the work of education itself, furnishes them with an object for their thoughts and for the employment of their energies. But when the average girl has gone through the wretched 'course of studies' prescribed by the schoolmistress or the governess, all comes to an end, and the next thing is to be married, or, at any rate, to be engaged. Her education has totally failed to awaken her interest in the subjects of men's studies, and to cultivate her natural faculties to such an extent as to make their further cultivation and the acquisition of more knowledge a delight and a necessity.

Sagacity of Chicago Canines.

Since the dog slaughter in Chicago has been so mercilessly prosecuted the canines of that city have become amazing knowing. The *Times* tells of one seen crouching in a corner of an alley on State street, and uttering a chuckling howl of delight as he watched the last dying agonies of a pig. The pig had eaten the dainty morsel laid down for the dog, and was the property of the officer who had laid it down. The dog evidently knew the fact, and he laughed. Another was observed to examine curiously a pailful of slops which stood by a door step on West Madison street. He smelled it and eyed it for full five minutes, and at last, taking it in his teeth, he carried it into an adjoining yard and turned it over, and with an exultant bark ran off. Two hundred hungry-looking curs came prowling around a small shanty on the North side, evidently in search of something wherewith to appease their hunger. Looking up at the door curiously, they read the ominous word "sausages," and with a howl of terror they ran off, and have never been seen since. They went in the direction of the lake, and who can tell what they may have done with themselves!

Public Debt.

The Philadelphia *Press* says: It is not probable that the regular monthly statement of the public debt, for the present month, will be delayed in its publication beyond the first or second of May. The indications are that it will present an exhibit of a reduction in the debt to the extent of $5,000,000 to $6,000,000. The receipts from customs and internal revenue sources during the month, will, judging from the sums which have already been reported, amount to about $28,000,000, one-half of which, being for customs, is in coin. The extreme lowness of the internal revenue receipts, as compared with other periods, is a fact which has been the subject of much interest for several weeks. It has only been on one or two occasions recently that the receipts from that source appeared less, or even as low, as those derived from customs. The statement will probably show an amount in the Treasury, in coin, of $100,000,000, with $14,000,000 or more in gold certificates of deposit.

—Toledo, Ohio, has twenty-five firms engaged in the lumber trade. Forests in the immediate neighborhood of the city, like the "Great Black Swamp," to which the State has built a macadamized road, supply immense quantities of black walnut. That wood was quoted there last week at $52@$58 per m.

The Prize Court at Cadiz—North German Parliament Closed—Speech by the King—Diplomatic Declarations Concerning Luxemburg Denied—Tumult at Oporto Suppressed.

NEW YORK, April 30.—The steamship City of Washington, from Liverpool on the 17th, Queenstown on the 18th, has arrived.

It appears that the prize court at Cadiz declared the capture of the Queen Victoria illegal.

The North German Parliament was closed on the 17th by the King, whose speech expressed infinite satisfaction at seeing around him members of the House, and congratulated them upon having established upon a solid foundation a Constitution, the development of which he would leave to future federal authority. It is but furnished with attributes indispensable but sufficient for the prosperity and power of confederation. The individual states, while the future is guaranteed by the totality of the bund, have retained their freedom of action in all departments wherein variety and development is indispensable, and salutary popular representation is secured by that cooperation in carrying out great national objects which corresponds to the spirit of the existing acquisitions of the country, and the necessity of the government to see their action supported by the agreement of the German people. The time has arrived when the German fatherland is able to uphold its own place, its rights, and its dignity, by its own collective strength, national self consciousness, which has met a powerful echo from all quarters of Germany. None the less, however, are all governments and people of Germany unanimous that the regained power of the nation has above all to uphold its significance by rendering secure all the blessings of peace. The King closed by asking God to bestow His blessing upon the dear fatherland.

Count Bismarck declared the session closed, amidst three cheers for the King.

Statements that diplomatic declarations were made by the Governments of France and Russia respecting Luxemburg, are semi officially denied from Berlin. It is officially declared from Berlin that, with the exception of the increased organization on the line and land where it begun last Autumn, and now completed, was rendered necessary by the new acquisition of territory, no special military measures have been adopted. The Rhenish fortresses are not armed, and no unusual demand is made upon the firearm factories.

The Dutch Government had ordered its diplomatic agents to refrain henceforth from all interference in the affairs of the Grand Duchy of Luxemburg.

The financial administration of Poland is placed wholly under the control of the Prussian Minister of Finance.

The tumult in Oporto, on account of new taxes, has been suppressed by the military without loss of life.

James McHenry sailed for the United States on business connected with the investigation committee of the Atlantic and Great Western Railroad.

The bankers in Constantinople gave the cold shoulder to the application for a government loan which would have yielded twenty two per cent. yearly.

FROM MEXICO.

Maximilian Attempts to Cut his Way Out of Queretaro, but is Repulsed—His Capture Considered Certain—Vera Cruz Invested by Liberals, &c.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, April 30.—The following additional news from Mexico was brought by the United States gunboat Tahoma, which arrived at Galveston on the 22d inst., from Tampico, April 17th: A dispatch had been received at Tampico from Juarez, dated April 13th, which stated that Maximilian and the garrison at Queretaro had about that time attempted to cut their way out, but were badly repulsed. The Emperor, it is believed, will surely be bagged.

The Tahoma's news from Vera Cruz reports that place invested by the Liberals, with five thousand troops, commanded by Mendez, on the south, and two thousand on the north under La Vega. All access to the city was cut off, and provisions were scarce. The last beef had been killed, and meat sold at a dollar a pound.

THE INDIAN WAR.

Horse Shoe Station Surrounded by Indians—A Telegraph Supply Train Destroyed.

ST. LOUIS, April 30.—An Omaha dispatch says: The report telegraphed from Leavenworth to the New York *Herald*, under date of April 21st, that Gen. Augur was about to move west from Fort Phil Kearney with 6,000 troops, that 11,000 Indians were encamped between Forts Kearney and Smith waiting for grass to commence hostilities, and General Hancock's expedition being in distress, is pronounced an unmitigated hoax at General Augur's headquarters.

A Fort Laramie dispatch of the 28th says: The Indians have surrounded Horse Shoe Station, and fighting is now going on.

A telegraph supply train was attacked on the 21st, seventy miles west of Laramie, and all the stock were driven off and the provisions destroyed. No more work can be done on the telegraph line without an escort.

The Eight-Hour System in Illinois—Grand Demonstration at Chicago To-Day.

[By Telegraph to the Pittsburgh Gazette.]

CHICAGO, April 30.—The advocates of the eight-hour system, including almost all the trades in the city, have concluded their preparations for an extensive demonstration to-morrow. Nearly all the railroad companies and manufacturing associations have issued orders that workmen will be employed by the hour hereafter, thus paying for the hour one-tenth of the wages formerly paid per day.

LATE CONDENSED NEWS.

[By Telegraph to the Pittsburgh Gazette.]

On Tuesday about two hundred men entered the town of Seymour, Indiana, forcibly seized a negro man named Mitchell and took him to the woods and hung him. They also seized two white men, named Stewart, and threatened to hang them. The cause of this violence was the robbery of a store in the northern part of that county, in which these three men were engaged.

Rear Admiral Cadwalader Ringgold, of the United States Navy, died at New York on Monday morning, of apoplexy. He was sixty-five years of age, and had been in the Naval service over forty-four years.

Present indications are that the trial of Jeff. Davis will not take place, as expected, in Richmond, next Monday, but that a further postponement will be made. The advisability of admitting Davis to bail is now being considered. It is stated that he has refused to give his parole, and that he positively declines to accept his freedom unless it is given unconditionally.

Attorney General Stanberry was closely engaged on Tuesday in the preparation of his opinion upon disfranchisement under the reconstruction laws, and it is thought it will be completed to-day and read at the Cabinet meeting this afternoon. It is understood that the opinion will be adverse to the decision of General Sheridan, excluding from registration a large number of municipal officers and naturalized citizens who fail to show their certificates of naturalization.

The Postmaster General has finally determined to take the responsibility of appointing special agents to take charge of the Postoffices left vacant by the failure of the Senate to confirm the nominations made to fill those offices. An agent was appointed to take charge of the offices at Newburg, New York, and Jeffersonville, Indiana.

The Supreme Court has decided that Philadelphia, owning the gas works, must pay the tax on the gas consumed in the city lamps.

Northern Democratic politicians are endeavoring to prevent President Johnson from going on a Southern tour.

Senator Wilson in North Carolina—He Denounces the "Latter Day Saints."

[By Telegraph to the Pittsburgh Gazette.]

RALEIGH, April 30.—Senator Wilson arrived last night and spoke at the African Church. The Senator advised the negroes to educate themselves, to acquire property and buy land. He then denounced the "Latter Day Saints," and cautioned the negroes against them. He was followed by two colored speakers who made conservative speeches.

The Senator spoke at the Capitol Square to-day, in the same vein as last night. He was listened to attentively by a large audience of black and white persons, among the latter several of the most prominent citizens.

Return of Mrs. Jeff. Davis From Her Trip to Washington—She Confidently Expects Jeff.'s Release.

FORTRESS MONROE, April 29.—Mrs. Jeff. Davis, accompanied by Dr. Pemberton, brother of the rebel General Pemberton, returned here yesterday from a visit to Washington, where they had been for several days, engaged in interviews with prominent Southern men upon the question of Davis' release. The result of the visit is unknown. Mrs. Davis is in remarkably good health and spirits, and in conversation with friends has lately spoken very confidently of the early release of her husband from confinement.

The Street Car Difficulty at Richmond Amicably Arranged.

[By Telegraph to the Pittsburgh Gazette.]

RICHMOND, April 30.—To-morrow the street Car Company will run four cars for both whites and blacks, and two cars for soldiers. The Company have only six cars, and this is done after consulting General Schofield.

LOUISVILLE, April 30.—River falling, 7½ feet in canal.

Banking Firm Suspended.

[By Telegraph to the Pittsburgh Gazette.]

ROCHESTER, April 30.—Allts, Watters & Co., private bankers of this city, suspended to-day, and made an assignment. Their liabilities are about $75,000.

Tannery Burned.

[By Telegraph to the Pittsburgh Gazette.]

BOSTON, April 30.—The tannery of John Bailey & Co., in Graton, was burned last night. Loss $15,000—partly insured.

Attempted Murder and Suicide—A Man Beats His Wife Nearly to Death with a Hammer, and then Attempts to Drown Himself.

Yesterday the town of Milwaukee was the scene of a sensation which came near proving fatal in its results. August Hellenbrecht is a German about forty-eight years of age, who lives on the Washington road near the toll gate, and half a mile from the city limits. He has been married three times, and his present wife has been married twice. They have no children by the present marriage, although by former marriages they have six. Hellenbrecht is well known in the city, having been engaged in a planing-mill in the Fourth ward, and has always been considered a quiet, inoffensive man. Some time since he joined the Methodist Church, and since then he says that his wife has heaped every indignity upon him, and threatened to turn him out of doors, and at times to give him over to the police. Regularly as he received his wages Hellenbrecht has given the amount to his wife for safe keeping. His father, an old man, lives with them, and he has been treated very cruelly by the woman, being now nearly naked and deprived of many of the necessaries of life. Hellenbrecht has been in the city about twenty years.

Yesterday morning, being in the house, Hellenbrecht attempted to lift the coffee-pot, but it being hot he dropped it. His wife then abused him, continuing the abuse until exhausted, she threw her self upon the bed.

As soon as she did this, Hellenbrecht, who appears to be a sort of religious fanatic, says the devil took possession of him and picking up a common hammer, he made a fierce and brutal attack upon his wife, as she lay in bed. How many times he struck her is not known, but the blows were frequently and powerfully given. One blow struck near the eye, its sharp edge forcing it from the socket. Another on the nose broke it completely down. There are marks of blows on the temple, on one side of the head, and one on the top of the head. All of these blows forced the hammer into the flesh, making the wounds of a ghastly nature. The woman sunk senseless under them.

As soon as he was satisfied with his work, Hellenbrecht started for the river, and, reaching it near Lindwurm's brewery, jumped in and attempt to destroy his own life. From his own account it would appear that he was insane. He says he was in the water half an hour, but God would not let him die, and he crawled out of the water and made his way home. He was in the house and just changed his clothes for dry ones, when officers Grube and Seifer, of the police force, reached it, having been sent for. He was at once arrested.

Mrs. Hellenbrecht's first husband cut his throat in a barn, some years since.

At noon to-day Mrs. Hellenbrecht was very low and insensible. The physicians have no idea that she can live through the day. In probing the wound in the temple, portions of the brain worked through.—*Milwaukee Wisconsin, April 23.*

—The New York *Tribune* says: A match for the chess championship of the United States has been arranged between Mr. Geo. H. Mackenzie, of New York, and Mr. G. Reichhelm, of Philadelphia. The player who first scores seven games will be declared the victor. In a similar match played last spring, Mr. Mackenzie was easily successful, but it is conceded that upon that occasion Mr. Reichhelm did not do justice to his well known abilities. The coming meeting between these gentlemen will take place upon the field, classic in the annals of American chess, afforded by the fine rooms of the Philadelphia Athenæum. The present year is likely to be one of importance in the history of chess. It is probable that the American championship will be again contested. A tournament of all the best players in the Union is not unlikely to be held in this city during the coming fall, and in France a grand Chess Congress of all nations will commence in the Exposition buildings next month, in which the most skillful men in the world will compete. For this contest the Emperor Napoleon has contributed the chief prize—"a work of art." Mr. Morphy may take part in this tourney. Mr. S. Loyd, of this city, is one of the board of adjudicature upon the merits of chess problems at the French tournament.

—An old resident of Birmingham, near Detroit, named Alton, was sitting in his house, near a window, conversing with some of his relatives and friends, when some one approached the house and poured the contents of a shot gun through the glass into his body. The injuries sustained by the unfortunate man were sufficient to cause almost instant death. The murderer fled, and up to the last accounts had not been discovered.

SECOND EDITION.

FOUR O'CLOCK, A. M.

FROM WASHINGTON.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, April 30, 1867.

SUFFERING IN THE SOUTH.

Letters from the South to the Relief Commission are numerous, and show beyond question that the suffering continues intense, and must increase as the season advances, until the time of harvesting.

BONDS AND PATENTS TO PACIFIC RAILROAD.

The central branch of the Union Pacific Railroad, having completed as a first class railroad twenty additional miles of its road in Kansas, and the same having been accepted, the President directed the Secretary of the Treasury and Secretary of the Interior to issue to the Company the bonds and patents for lands to which it becomes entitled.

SMUGGLING FROM CANADA.

Information received at the Treasury Department states that the Canadian officers of Customs are aiding and abetting in every possible way the smuggling of goods into the United States. Merchants and men of acknowledged responsibility in Canada and England are said to have embarked capital in this contraband business, and all the watchfulness of Government officers cannot entirely prevent the occasional introduction of goods free of duty.

CABINET SESSION.

The Cabinet session to-day was only an hour long. All were present except Secretaries Stanton and Browning.

The Comptroller of Currency has returned from a brief visit to New York.

THE JAPANESE VISITORS.

The Japanese Commission will, to-morrow, have an interview with the Secretary of State, when their credentials will be submitted, and the time fixed for their formal introduction to the President.

INTERNAL REVENUE RECEIPTS.

The receipts of Internal Revenue to-day were $400,000.

SECRETARY BROWNING CONVALESCENT.

Secretary Browning has been pronounced out of danger by his physicians.

SECRETARY STANTON ILL.

Secretary Stanton has been confined to his house for two days, the effects of a severe cold.

RETURN OF SECRETARY SEWARD.

Secretary Seward attended the Cabinet meeting to-day.

THE JAPANESE.

The Japanese Commissioners will be presented to the President to-morrow.

FROM NEW YORK.

[By Telegraph to the Pittsburgh Gazette.]

SUB TREASURY RECEIPTS.

NEW YORK, April 30.—The receipts at the Sub Treasury to-day were $3,545,248; payments, $10,571,777.

RACKET MATCH.

The four hundred dollar racket match between Foulkes and Devoe, the champion and ex-champion players of America, and William Gray the English champion and his brother, was played this afternoon. Owing to the weather and the unfavorable state of the court the stakes and all bets were drawn. The American players were victorious, scoring four games to their opponents two. The best of seven constitutes the match.

THE GARDINER WILL CASE—A VERDICT.

The Tyler-Gardiner will case has resulted in a verdict that the will of Mrs. Gardiner was invalid, and that she was subjected to undue influence when she made the instrument. By this verdict, Mrs. Tyler, Mr. Gardiner, and Harry Beekman become heirs-at-law, and as such are entitled respectively to one-third the value of the property, which is estimated to be worth $100,000. The decision, however, cannot be regarded final, as the case has to be argued before the Supreme Court by Mr. Evarts. An effort will be made there to have the verdict set aside.

GEN. SHERIDAN AND REGISTRATION.

A Washington special says the Cabinet met this morning to consider the opinion of Attorney General Stansberry against Gen. Sheridan's exclusion of naturalized citizens from registration unless they exhibit their certificates of naturalization. It is understood the Attorney General regards General Sheridan as exercising unwarranted power.

RAILROAD ROBBERS ARRESTED.

Edwin Smith, Michael Chauncey and Jeremiah C. Bond were arrested for robbing a freight car of the Erie railway, at Jersey city, of $4,213 worth of goods. About $1,000 worth of the stolen goods were recovered. The robbers were held for trial.

PRACTICAL RADICALISM.

A Washington special says a prominent republican has bought a farm of nearly four hundred acres, which he proposes to divide into small lots to be sold to freedmen, the proceeds to be set apart for the benefit of educational institutions for colored people. The cost of the land is $52,000.

ULRICH, THE COUNTERFEITER.

Charles Ulrich, one of the most expert of counterfeiters, has been held for examination.

A large number of copper plates, for the manufacture of counterfeits on State banks, mostly in New England, were discovered buried at Patterson, N. J., labelled 1866.

PRESS ASSOCIATION MEETING.

NEW YORK, April 30.—The annual meeting of the New York State Associated Press will be held at the Metropolitan Hotel, in this city, on May 8th.

MARRIAGE OF A CONGRESSMAN.

Hon. Benjamin Eggleston, of Cincinnatti, was married here on Saturday, to Miss Mary E. Davis, of Cincinnati.

THE PRUSSIAN FORGER.

United States Commissioner White has decided to warrant the extradition of Phillip Henrien, the alleged Prussian forger.

SURRATT'S TRIAL.

It is reported the trial of Surratt will begin on the 3d week of May.

FROM CALIFORNIA.

Sale of Quicksilver Mines by a Pennsylvania to a New York Company.

[By Telegraph to the Pittsburgh Gazette.]

SAN FRANCISCO, April 30.—A deed was filed April 24th in the office of the Recorder of Santa Clara county, by the Quicksilver Mining Company of Pennsylvania, conveying to the Quicksilver Mining Company of New York the New Almaden quicksilver mines. The consideration expressed is three millions and a half.

The steamer Shirley, from New York, arrived, and the steamer Autocrat, for Philadelphia, with 34,350 sacks of wheat, cleared.

SAN FRANCISCO, April 30.—Advices from Yokohoma, March 29th, state that the market for manufactured goods was dull, with limited transactions; gray shirtings advanced five cents. There were considerable purchases of silks, with higher prices, for export. Teas were in moderate demand with unchanged prices; stock estimated at from four to five thousand piculs, and exports for the current season at about six million pounds. American drills $6,50 and nominal.

FROM ST. LOUIS.

Extensive Fire—Loss $200,000—Railroad Route to the Plains Re-opened.

[By Telegraph to the Pittsburgh Gazette.]

ST. LOUIS, April 30.—The extensive saddlery house of Ratham, Strauss & Bro., 517 Main street, between Olive and Locust, was burned to-night. The stock was valued at $125,000; insured for $70,000. The fancy dry goods and notion store of Wear & Hickman, adjoining, on the north, was damaged by water to about $50,000; fully insured. The jewelry store of L. Forbes & Co., on the south was also much injured by water, but the loss could not be fully ascertained to-night; fully insured. The total loss will probably reach $200,000.

Repairs on the Chicago and Northwestern Railway will be completed, and trains running to-morrow. This will open the route from Chicago to Omaha and the Plains.

Pennsylvania Railroad Stockholders Meeting—Increase of Capital Recommended.

[By Telegraph to the Pittsburgh Gazette.]

PHILADELPHIA, April 30.—At a meeting of the stockholders of the Pennsylvania Railroad to-day, the report of the Special Committee was received, fully endorsing the policy of the present management, including fast freight lines, and stating the affairs of the Company to be in a sound and prosperous condition. An increase of capital is recommended to extend the works and increase the efficiency of the Company. The report was unanimously adopted.

Paper Works Destroyed.

[By Telegraph to the Pittsburgh Gazette.]

End of the Lockout.

It affords us no little pleasure to state that the great lockout is about at a close, and that ere another week passes the large majority of the iron mills in this neighborhood will have resumed operations. The employees have agreed to pay the bill of prices demanded by the workingmen, and, depending upon more remunerative prices for their iron, and the much reduced freight offered by railway companies for its transportation, they hope to evade future suspension of operations. One or two mills, where iron is exclusively manufactured, have refused to resume operations, but nearly all the mills engaged in the nail-making business will start this week.

Thousands of workmen who have long been idle will be gladdened at the resumption, and after first pay day its effect will be felt in all branches of trade and industry. During the prolongation of the strike, by which many of the laboring portion of the community, were reduced almost to absolute poverty, be it said to the credit of the working masses, that their conduct was unexceptionable and praiseworthy, and reflected the highest credit upon their intelligence and integrity.

The present resumption does not necessarily denote that the mill owners took false ground in declaring their inability to pay the prices demanded by the boilers. They resume on an experiment, trusting that they may be able to pay the price demanded, and successfully compete with rival manufactories elsewhere; should their hopes not be realized, the workingmen, in view of the present concession, will be better prepared to enter into any compromise which wisdom and experience might suggest. For the sake of the suffering interests of the city, we rejoice that the lockout is at an end, and that Pittsburgh shall once more thrive and prosper under the smoke of the industry of her citizens.

The Late Steamboat Explosion—Conclusion of the Coroner's Inquest.

The jury impanneled to inquire into the cause and manner of Patrick McCall's death, injured by an explosion on board the "Alexander Chambers," on Thursday, the 18th inst., met at the Mayor's office last evening. The only further testimony taken is given below:

George Atkinson, recalled—Inspected the boiler of the "Chambers" in March last; we allowed her one hundred and fifty-five pounds of steam; found the boiler in good order. She stood the test. We had on her one hundred and ninety-five pounds hydrostatic pressure to the square inch at the examination in March. Considered it safe at that time; examined the flue after the explosion, and found it had collapsed; my opinion is that the cause of the explosion was excessive pressure of steam, and the flue may have been heated; found the valve stem corroded; think the engineer was deceived as to the amount of steam he had on; considered him competent when he was examined for first engineer; but think he was negligent in not examining the safety valve in this case. He had always had a very high character in our office; my opinion is that the flue had been heated, though only an opinion. The evidence taken before me shows that the engineer was at his post when the explosion took place.

The jury after a brief deliberation agreed upon the following verdict: That the deceased, Patrick McCall, came to his death on the 19th day of April, from injuries received by a collapsing of the flues on the tow-boat "Alexander Chambers," which occurred on the day previous. That it is the opinion of this jury that the engineer, James Reno, might have, by a more strict examination of the boilers and by more carefulness, prevented said explosion, but in the opinion of the jury he was not culpably negligent.

The Champion Boat Race.

Walter Brown, of Portland, the challenger of Hamill for the champion boatmanship of America, writes to the *Argus* of that city regarding his training exercises and the coming match, as follows:

"About five miles east of Pittsburgh, Pa., we found a stream of water between the mountains, called, from the romantic scenery, Glenwood. The mountains on either side are about half a mile high. Here we are to stay until a week previous to the race, when we will move our quarters immediately opposite Pittsburgh, where the race is to take place. I am very happy to say that the climate and everything agrees with me, barring the smoke, and I only feel anxious for the day to arrive when I will cross oars with the man who is supposed to be the best in the country.

"I will say now that, win or lose, this will be my last race, and I shall do the best I am capable of, for my own credit and that of the city and State I hail from. I hard work, and plenty of it, will make me win, I do not fear the result. The boating men hereabout think that a mere boy (which they call me) of my caliber will have no show with their representative. I will acknowledge that he has a great advantage over me in knowing the different currents where we are to row, for it is at the junction of three rivers, Monongohela, Ohio and Allegheny. But, nevertheless, the advantage, I think, with a long stroke and a lively one, we will pull through successfully."

An Amicable Settlement.

Two informations were made yesterday before Alderman Mullin, of Allegheny against James Bronson, colored, a resident of the First ward, Allegheny. In the first John Ball, colored, charged him with a breach of the peace, in drawing a razor upon him and threatening to kill him, and also with pursuing him some distance with the intention of carrying his threat into execution. The second was of a similar character, Sarah A. Jackson alleging that James not only threatened to do her bodily harm but called her the vilest of names. James Bronson afterwards made information against Jane Bronson, alleging that defendant had in her possession clothing of prosecutor to the amount of fifty dollars, and refused to deliver up the same to him. The suits were entirely among friends and neighbors, and at the hearing before the Alderman, yesterday, they concluded to make a fair division of the costs among themselves and have the suits withdrawn.

Fashionable Millinery.

Mrs. A. J. King, the fashionable milliner at No. 21, Diamond Alley, announces that she has received a new invoice of all the latest fashionable styles of ladie's and children's Hats and Bonnets, which have appeared in the metropolitan cities. This lady has long enjoyed a high reputation in fashionable circles, giving her exclusive attention to meeting the wants of her patrons, and being always up to the latest styles. Our lady readers are invited to call in and examine the fine assortment of bonnets and hats now on exhibition at her neat millinery emporium, as there they will find the "sweetest" little devices in the way of head gear yet introduced. Mrs. King also keeps constantly on hand a full line of ribbons, laces, sashes, and bonnet and hat trimmings, and manufactures to order at the shortest notice upon very reasonable terms.

Abe Lincoln Lodge No. 22 I. O. of G. F.

At a meeting of Abe Lincoln Lodge No. 22, I. O. of G. F. held at their hall in Etna on Monday evening last, the following officers were elected to serve for the ensuing term. W. C. F: Samuel H. Sutter, W. V. F: John M. Yahres, W. S. H., A. Stone, W. A. S: Mrs. Maggie McKee, W. F: James Strain, W. F. S: Miss Jeannette Banks, W. I. G. George A. Stewart, W. O. G: Joseph F. Lee, W. M: Chas. N. Howenstine, W. D. M: Miss Emma Danks, W. C: J. W. Hughes, W. R. H. S: Miss Addie Davis, W. S. H. S. Miss Mattie Taylor, P. W. C. F. John W. Williams.

This Lodge is in a very flourishing condition, and now numbers nearly one-hundred members. The regular meetings of Abe Lincoln Lodge are held on Monday evenings.

Big Gun Tested.

A twenty-inch gun, the one last finished at the Fort Pitt Works, was tested yesterday at the "proving ground" in the vicinity of Wall's Station, on the Pennsylvania Railroad. The test consisted of nine rounds, and was considered entirely satisfactory. The charges consisted of sixty, eighty and one hundred pounds of powder, with balls weighing one thousand pounds each. It is estimated that the balls penetrated the earth in the hill-side a distance of two hundred feet.

A Slight Difference.—Suit was brought against Allegheny City by a citizen for injuries sustained by an accident on River Avenue, occurring in consequence of the bad condition of the street. The Finance Committee of Councils offered to compromise with him for $60, but he refused, the amount not being satisfactory. The case was tried on Monday, and a jury awarded him $270 damages. With this he must be satisfied.

Surety of the Peace.—Sarah Watson appeared before Alderman Strain yesterday and made oath against Mary Ruford, alleging that Mary had called her vile names and threatened her with bodily harm, and at the same time, fearing lest she might carry her threats into execution, prayed that the defendant be put under bonds to keep the peace. The parties are residents of Scott Alley. Warrants issued.

The Great Apocalypse at Masonic Hall Last Night.

This exhibition, representing the visions of Saint John, which opened at Masonic Hall last night, is one of the finest things it has been our lot to witness. It is utterly impossible for any person, from one attendance upon this exhibition, to convey to others a just description of these marvelous and sublime representations, wherein the actors are Deity, Angels, Satan, Dragons, Beasts with many heads, in human and mysterious shape, earthquakes, tempests, pestilence, fire and war, in Heaven, Earth and Hell. It must be seen repeatedly before we can express in words an intelligent description of these tableaux representing the visions seen by Saint John, on "Patmos Isle," eighteen hundred years ago. To allude in detail to all that is instructive, solemn, and beyond mortal comprehension, as seen in these visions, to dwell upon the glories of the Christian's future home; to describe the resurrection, and the graves and the sea giving up their dead (as recorded in Revelations and depicted in this entertainment); the rivers turned to blood, the darkened moon, the loosened stars, the trembling hills, the falling cities, death, war and famine, as the seals are opened, the trumpets sounded and the vials of wrath poured out; the day of doom, the heavens departing as a scroll, "and time proclaimed to be no more," to notice these and many other scenes of a similar nature in this entertainment would require columns and volumes, instead of the brief space a daily paper can allot to them.

We would, however, call particular attention to the last scene, where Saint John sees the New Jerusalem in all its future glory, as shown him by an angel. The scene represents a street in the city, showing the river of life and the tree of life, golden pavements, magnificent palaces with jeweled columns and gilded domes, the whole forming a scene of unparalleled beauty, it seeming to the beholder one perfect blaze of glory, and representing the future home of the Christian.

We doubt whether Masonic Hall will hold all the people who will throng there while this entertainment remains in the city.

A notice will be given this afternoon when children will be admitted for fifteen cents each.

Amusements.

MR. LEAK'S BENEFIT.—One of the largest and most brilliant audiences of the season assembled last evening at the New Opera House to pay a farewell tribute to Mr. W. H. Leak, upon the occasion of his benefit. We regret exceedingly to announce that this gentleman is about severing his connection with the Pittsburgh stage to accept an engagement in the east. He has ever been a favorite with theatre-goers, being a fine actor who never forgets his own dignity in catering to the amusement of his audience. He is pre-eminently ahead of the great majority of traveling stars, in point of native talent, ability, conception and interpretation of character. His loss will be deeply felt here, and we trust he may be equally successful in winning friends and admirers elsewhere.

Miss LOUISA SYLVESTER, always a pet with Pittsburghers,—a young lady who has grown from childhood on the first class stages of this city in sight of our theatre goers, takes a benefit to-night at the Opera House. A rare bill is offered, and if she is not complimented with an overflowing audience we will be sadly mistaken. She is a very pleasing actress, modest almost to a fault, and is destined doubtless to occupy a high position amongst the bright stars of the profession. Let her friends rally to-night and give her such substantial evidence of appreciation as her earnest endeavors to please in the past, are entitled to.

THE APOCALYPSE.—This grand exhibition of art, the world's wonder, which has attracted thousands and thousands of visitors nightly in the metropolitan cities of both continents, opened last night, to a densely packed audience, at Masonic Hall. The visions of St. John are faithfully portrayed, and furnish a better interpretation of the mysterious Book of Revelations than could volumes of theological instruction. The exhibition is well worthy a visit, being pleasing, and at the same time morally instructive. Go early to-night if you would obtain admittance, as hundreds were turned from the doors last evening.

District Court.

Before Hon. H. W. Williams.

Cyrus Reed vs. Adam Berry. Before reported. Verdict in favor of plaintiff for $1,655.

Mary Ann Daly vs. James Millengar. Defendant's counsel moved for a new trial, and filed reasons.

Buffum, Kehew & Co. vs. Mrs. E. F. Denny and Patrick Pender. Action in replevin for two desks, one iron safe, fifteen barrels of lubricating oil and three barrels of fish oil, valued at $1,050. The property was levied upon, according to defendants' avowry, for arrears of rent for premises on the corner of Market and Second streets, viz: $150 due July 1st, 1866, and $150 due October 1st, 1866. Plaintiffs denied that any rent was due, and claimed that defendants had been evicted from a portion of the premises; that defendants *vi et armis* broke and entered the premises, injuring the same. On trial at adjournment.

Wednesday's Trial List.

DISTRICT COURT.

76. Alexander Binnie vs Alex. Murray.
78. John R. and Nancy Largo vs. Jane and Robert Robb.
81. E. S. Ward vs. S. K. Kane & Co.
85. E. S. Ward vs. Geo. B. Jones' adm'r.
86. Richard Armstrong vs. William Callahan.
87. J. E. Beggs vs. steamboat "Jim Watson."
88. Peter S. Weaver vs. steamboat "Nevada."
89. Wm. Voight vs. Wm. H. Barker, garnishee.

COMMON PLEAS COURT.

The Argument List will be continued.

Two Charges of Assault and Battery.—A warrant was issued yesterday by Alderman Lynch for the arrest of L. Sproal, charged, on oath of B. O'Donaghue and E. Cosgrave, with assault and battery. The defendant in this case keeps a boarding house in Allegheny and the prosecutors were boarders at the house. They allege that when they went to him on Saturday to pay off their bill, he "pitched into" them, knocked them down and otherwise abused them. Up to yesterday evening defendant had not been arrested.

Keeping a Ferocious Dog.—James McGarrity appeared before Alderman McMasters and made information against F. Van Gorder and Stephen H. Shephard, charging them with keeping a ferocious dog. Prosecutor alleges that while his son, a youth of twelve years, was standing at the store next door to that of defendants on Liberty street, a dog belonging to defendants jumped upon the lad and bit him severely in the neck. The defendants gave bail for a hearing before the Alderman this morning, and in the meantime promised to kill the dog.

False Pretences.—Robert Foster made information yesterday before Alderman Lynch, against James M'Bride, charging him with obtaining boarding to the amount of fifty dollars by false and fraudulent representations. Prosecutor alleges that defendant came to his house in August, 1865, and by representing that he had money due him from Wood & Morrell, obtained the boarding mentioned. Defendant was arrested and gave bail for a hearing on Thursday.

Accident to a Carpenter.—John Aiken, son of the Fourth street Undertaker, on Monday, while employed in his business, that of a carpenter, on a building on Pennsylvania avenue, accidentally struck his right leg with an adze, severing the minor arteries and striking the bone with considerable force. He received attention from Dr. R. S. Sutton, and was removed to the residence of his father. The wound is not likely to result seriously.

The Postoffice at Lock Haven was robbed on the night of the 29th inst. As some half-a-dozen of the postoffices of Pennsylvania have recently been rifled in a similar manner, it is probable that some desperate criminal has made a specialty of this offence. The postmasters of all important towns should exercise increased vigilance, as well for the protection of their respective offices, as to arrest, if possible, this dangerous robber.

A Narrow Escape.—Two small children, while playing on the bank of the river in Allegheny, yesterday, by some accident or other fell in. A gentleman passing by at the time happened to notice them and rescued them from their perilous situation. The children live on Robinson street, near Bradley's Woolen Factory, but we were unable to find out their names or that of the party rescuing them.

Men Severely Injured.—By the fall of a scaffold on Carson street, East Birmingham, on Monday afternoon, three men were injured, two of them, named John Fishbaugh and —— Mustaw, quite severely. They were engaged in taking down the walls of a building destroyed by fire some months ago, at the time in the occupancy of Mr. Joseph Schell as a tavern.

The Philadelphia *Press* says: A handsome new hose carriage, built for the soldiers' fair at Pittsburgh, the object of which is for the purpose of raising money to erect a monument to deceased soldiers of Allegheny county who fell in defence of their country during the late rebellion, will be shipped during the present week. It cost upward of $1,000.

Child Drowned.—Yesterday afternoon George King, a lad of four years, fell into a well at Oakland and was drowned. The well was made by sinking a barrel in the earth, and no person having noticed the boy fall in, he was unable to get out by his own exertions. Coroner Clawson held an inquest on the body yesterday and a verdict of "accidental death by drowning" was rendered.

Assault and Battery.—Catharine Cochran appeared before Alderman Strain yesterday and lodged an information against Kate Walkers, for assault and battery. Deponent alleges that defendant made an attack upon her little daughter with a stick; struck her several times and broke her arm. The defendant was arrested by officer Wilmot and gave bail for a hearing.

Bold Larceny.—Three pairs of boots were stolen on Monday night from the front window of the store of Thomas Graham, 221 Liberty street, through an aperture made with a brick thrown by the thief, causing damage and loss to the amount of fifty dollars. Of two pairs of boots the thief took the two "lefts," leaving the two "rights." He escaped and is unknown.

Methodist Sunday School Institute.—It will be remembered the Institute meeting announced in our advertising columns commences this morning in Christ M. E. Church at ten o'clock. It will, doubtless be an interesting time on both days to the lovers of the noble cause. Let all attend, who can find time, especially ministers and teachers.

Surety of the Peace.—Hattie Feeney appeared before Alderman Lynch, yesterday, and made information against Thos. Harrington, charging him with a breach of the peace. She alleges that defendant swore he would cut her throat, and she fears that he may carry his threat into execution. A warrant was issued for the arrest of Harrington.

Thomas Dunn, an employee of the Pittsburgh and Connellsville Railroad, while in the act of coupling some cars at the depot yesterday, had his hand smashed between the bumpers of the cars. The two middle fingers of his right hand were amputated by Dr. Arthurs and he was afterwards conveyed to his home in West Newton.

Should be Done.—We understand there is a probability of the church building on Wylie street, at the corner of High, not being allowed to tumble down, a proposition being under consideration to raze the present unsightly pile of bricks and give place to buildings commensurate with the rapid improvement of that locality.

Libel.—Mr. D. O'Neil made information yesterday before Alderman Strain against Jno. W. Pittock for libel. The alleged libel consists in the publication of an article in the *Leader* last Sunday week, with which our readers are already familiar. Mr. Pittock waived a hearing and entered bail for his appearance.

Argued.—Judge McCandless, of the United States District Court, yesterday forenoon heard the argument in the case of Weedon J. Bryan, whose distillery was seized in 1861. District Attorney Carnahan appearing for the Government, and Hon. James Veech for defendant. The decision was deferred.

Assault and Battery With Intent to Kill.—Rebecca Wilkinson made information yesterday, before Alderman Morrow, against James Wilkinson, charging him with assault and battery with intent to kill. Defendant was arrested and, in default of $1,000 bail, committed to answer the charge.

Plunder Recovered.—Most of the articles stolen from the office of Mr. Hammond, on O'Hara street, Sunday night, are recovered, having been found by the police in the possession of some boys, who stated they found them concealed under the railroad bridge over the Allegheny river.

A Gipsey Camp has been established on the road between Minersville and East Liberty, and the gipsies are driving a brisk trade in the way of telling fortunes, horse trading, &c. The camp presents a rather squalid appearance, the tents being made up of old and ragged material.

Assault and Battery.—A warrant was issued yesterday by Alderman Lynch for the arrest of one Davis, charged, on oath of J. W. Winell, with assault and battery; prosecutor alleges the defendant hit his son with a brick bat, causing a severe and ugly wound. The parties reside in the Third Ward.

Scarcely adequate punishment was imposed by Mayor Morrison, yesterday, upon James McCague, a resident of the Seventh ward, for indecently exposing himself. In default of a fine of twenty-five dollars and costs, he was committed to jail for thirty days.

Assault and Battery.—Margaret Stump appeared before Alderman Thomas yesterday, and made information against John Brown for assault and battery. Defendant was arrested, and in default of bail, committed to jail for a hearing to-day.

Justice Lipp, of Birmingham, yesterday committed to jail, in default of $300 bail, Patrick Kiddy, charged on oath of John Kiddy with a breach of the peace in threatening bodily harm to deponent. Both parties are residents of Birmingham.

Circus Donation.—A portion of the proceeds of the exhibition at Thayer & Noyes' Circus, in Allegheny, this afternoon, will be appropriated to the benefit of the Soldiers' Monumental Association.

Bridge Repairs.—The flooring of the footwalks of the Birmingham bridge is undergoing renewal, the work being prosecuted with as little interruption to travel as possible.

The Whisky Court continued in session yesterday, disposing of all the applications for license by parties resident south of the rivers. To-day those on the north side will be attended to.

Common Pleas Court.—The argument list claimed the attention of the Court of Common Pleas yesterday, Judges Sterrett, Mellon and Stowe on the bench.

There are over one hundred criminal cases to be disposed of at the present term of the Venango County Court.

The work of constructing the Allegheny Valley Railroad to Oil City is being pushed with vigor.

—Some excitement was produced in Portsmouth recently, in the neighborhood of the Court street Baptist Church, by a caning affair that came off as the denouement of a correspondence that had been conducted by a married lady and a gentleman who had presumed to admire her. It appears that the victim of the cane had written a note to the married lady, which she indignantly and promptly showed to her husband; the husband was also indignant and instructed his wife to reply to the note, and make an appointment to meet him at the point above named. At the appointed time the expected "lovyer" appeared, but instead of meeting the lady he was confronted by the enraged husband, who proceeded to seek satisfaction by the vigorous application of a big stick, and ended his attack by cropping one of the ears of the admirer of his wife. The husband being satisfied, reported the affair to the authorities, and gave bonds for his appearance to answer when wanted. There has been no complaint entered, and we withhold names for the present.—*Norfolk Day Book.*

THE JEWISH RACE.—The *Hebrew National*, a new weekly journal, published in London, gives some interesting statistics of the Jewish race. It says that there are now living about 6,000,000 Israelites, about half of whom live in Europe. There are 1,220,000 in Russia; in Austria, 900,000; in Prussia, 284,000; and in all parts of Germany 192,000; in France about 42,000; in Syria and Asiatic Turkey, 52,000; in Morocco and North Africa, 610,000; in East Asia, 500,000; in America, 250,000; in Belgium, 1,200; in Denmark, 6,000; in Italy, 4,800.

The American Display at the Paris Exposition.

Our correspondent "X," in his last letter from Paris, was very severe upon the display made by the United States at the great Paris Exposition. That he was just in his criticism the following description from the able foreign correspondent of the Detroit *Tribune* proves, corroborating "X" in every particular:

"It is a remarkable fact that the visitors just now are chiefly English, Americans and French. The English, who were lamentably tardy and fussy in March, have been at work tremendously in their department for the last ten days, and the results are fine. Perhaps the machinery gallery is no better than ours or that of France, but the immensity and variety of the display is surprising. I did not expect to have to say this, but I am determined to be just. The English colonies especially are finely represented. There is not an American now in Paris who does not bitterly regret the shabbiness of our display, as it looks in general, and I must state that Commissioner Beckwith comes in for a fair share of the blame. Perhaps he has done all he could, but if he has, it is not enough. At any rate, after the magnificent promises which we have made, the other nations can with perfect propriety laugh at us. Do not think me too critical, but I dislike even the look of our department. The decorations are dingy and cheap looking, and the contrast is all the more pitiful from the fact that we are placed directly opposite the burning splendors of the Orient. The Avenue d'Afrique divides the department allotted to New York from that occupied by Constantinople, perfect in arrangement and glorious in color. It is too bad, and perhaps our Congressmen are a trifle to blame for not allotting a larger appropriation. It takes an immense amount of money to make a respectable show in the midst of all these ambitious displays. The dullness but solid wealth of our minerals needed more of the glitter of arms and instruments to set them in relief. Then what could have been the idea in painting the names "Massachusetts, Louisiana, Georgia and Connecticut," all in one circle! Why not have followed the regular divisions of the States, and given us New England resources separate from Southern developments, and the Western wealth in a department different from that of the Middle States. By the way, New York makes the poorest show of all as yet. Not a single contribution from Michigan has been put in place. Illinois has but a shabby representation. Where are its cereals—with which the world may fill its stomach. Massachusetts has no extraordinary displays, and its commissioners are rather slow. Indeed, I think, if a curtain could be drawn over us for a month, it would be much to our credit.

But do not infer from this that we shall not have a fine display by and by. One may hope that the decorations will be retouched, the hosts of unpacked boxes emptied, the Chicago commissioner's schoolhouse (he cannot find it now) discovered and set on end, the thousand and one quarrelling exhibitors calmed and satisfied, and the whole thing harmoniously adjusted. It was quite a poetic idea of the Imperial Commissions so to plan the avenues of the palace that the West and East should confront each other, and we must have solidity to put against the luxury of the Orient. However, even now we are better off than Italy, which has literally nothing in place, and perhaps we shall be "in at the death" with our flag floating over as fine a department as any, with the exception of France and Russia. So once more I give my counsel to all who intend to come by the Great Eastern's first date to transfer their passage to a later day if they would see all.

The Fashions.

The *Home Journal* says: The cloaks and sacques for spring and summer wear are quite pretty and stylish. Some are cut in small points round the bottom, others are scolloped, and all are made with the now very fashionable large, loose sleeves, which, by the way, are exceedingly graceful. The silk sacques are made of heavy silk and profusely trimmed with lace and jet trimming. We have seen some *Rona* lace sacques, made with large loose sleeves, and lined with pink silk, which are very beautiful for full dress or summer wear. White cloth cloaks, trimmed with black and lined with cherry colored silk will be found both pretty and serviceable for the summer. —We saw, the other day, some very pretty and stylish white Swiss muslins, made for a bride, that were quite odd, the waist and skirt cut all in one piece, *a la princess*, trimmed on the bottom with a deep flounce, headed with lace. A little muslin sash, trimmed with lace on either side, was tied round the waist and hung down behind, the front breadth being ornamented with tiny pockets, trimmed with lace, to match. Percale and *pique* dresses are pretty and stylish, made in this manner for morning wear. White gauze dresses are also stylish, with colored satin stripes in them, others with small bunches of gay flowers, on a white lavender, or gay ground. —Some pretty fans have just been imported. They are made of white lace, with ambersticks. Others are of white lace, with peral and coral sticks. These are very beautiful, but frail and costly, and can only be purchased at one or two places in the city.—Jet collars are now very much worn, either with cloaks or low necked dresses.

—In Baltimore on Saturday afternoon, a youth named Josiah Crager, aged about sixteen years, son of Peter Crager, met with his death under very distressing circumstances. It appears that he was employed by Messrs. Wyatt & Co., at Winan's ship yard, on Light street extended, in breaking up old iron shells. The firm, it is stated, had employed an experienced military officer to draw the charges from the missiles before they were broken up—they having been previously soaked in water. At the time of the sad occurrence, fire had been communicated to some loose powder, and young Crager fearing an explosion, ran to the wharf and jumped overboard. His heavy clothing becoming saturated, he was drowned before help reached him. The body was recovered shortly afterwards, and removed to the residence of his parents, in Smith's lane, near Light street.

ANOTHER DELUSION GONE.

The Act of Emancipation is rapidly dispelling the self-induced delusions under which a majority of the American people rested for a long succession of years respecting the blacks. It has already been observed that the ballot in the hands of four millions of the colored race has perfectly deodorised the whole of them of that peculiar smell which was so repugnant to the whites. They are now pure and fragrant, or dirty and offensive, according to their respective habits as to cleanliness, the same as other people.

Thirteen years ago Dr. J. C. NOTT, of Mobile, and Mr. GEORGE R. GLIDDON, formerly United States Consul at Cairo, Egypt, published with much trumpeting the "Types of Mankind." The main object of this work was to prove, with the formality and exactness of scientific demonstration, that the negro is not a man. Among other physiological arguments insisted on was this, that hybreds are not prolific. Under this head was presented a mass of details designed to show that a very large proportion of the Southern blacks were of mixed blood, so did not multiply, were scrofulous to an unparalleled degree, and that the whole race would consequently run out. These ethnologists did not stop to consider and answer the question asked by MONTESQUIEU a century before—"If the blacks are not human, of what crime are those whites guilty who have children by them?"

Since these people, thus demonstrated to be brutes, have become voters, statisticians have found no difficulty in refuting this pretense of knowledge, which was only a gilded ignorance. Southern writers now almost uniformly admit that notwithstanding the peculiar hardships to which the blacks were exposed by the rebellion and by the temporary disruption of society upon emancipation, reducing them to severe want, and engendering fatal diseases, the black population is as numerous as before the war, and is increasing in greater ratio than the whites. It may not be exactly respectful thus to dispose of theories elaborated, with infinite pains-taking, and a show of scientific impartiality; but Truth is a persistent iconoclast, and will break first or last, all the images falsely set up.

In this connection it may be well to recapitulate the estimate made by Southern Conservatives of the probable affiliation of the voting population of that section. They admit the blacks, if all register and vote, will deposit 550,000 ballots out of 1,260,000 in all. They concede than one-fifth of the whites, and no more, will vote the Radical ticket, and claim that one-fifth of the blacks will vote with the Conservatives. From these generalizations they deduce these results:

Conservative whites	570,000
Conservative negroes	110,000
Conservative vote	680,000
Radical whites	140,000
Radical blacks	440,000
Radical vote	580,000

On this basis Virginia, Arkansas and Georgia are claimed for the Conservatives; hopes are cherished that South Carolina will go the same way, owing to the influence of whites over their former slaves, while the remaining States are conceded to the Radicals. This presents the case quite as favorably for the Conservatives as it is likely to turn out. It is quite possible they may not realize these expectations.

COAL STRIKES.

Perhaps no branch of productive industry in this country was quickened to a greater degree, or yielded a higher ratio of profits, during the Rebellion than the mining and transportation of Antharcite Coal. Nor were the unusual gains divided solely among the proprietors. The miners, properly so called, shared liberally in the increase, their emoluments reaching from eight to ten dollars a day. The helpers, or ordinary laborers, employed by the miners themselves, did not fare as well, their compensation, except in rare instances, not rising above two dollars a day. The inference would seem to be that proprietors are more generous with skilled workmen, than these are with common laborers. Indeed, it may be remarked that ordinary laborers rest always under greater hardships than any other class of people who earn a living by manual toil, and stand in much greater need of co-operative associations to ensure them a reasonable measure of remneration.

When the war closed the market value of antharcite rapidly receded, and, considering the increased number of mines worked, and the augumented facilities for getting the product to the great centers of consumption, it is evident prices will not soon go up again to the point at which they stood. The increased supply outran the demand. The miners did not seem to understand this. At least, they talked as if the proprietors could pay high wages as easily as low wages, if they saw fit, and could make the price of coal in market correspond. Every body else saw that the proprietors had no control whatever over the demand, and that prices could only be raised by lessening very greatly the supply. This would necessarily throw many of the miners out of employment all the while, or else restrict the whole of them to work for only three or four days each week. This latter alternative would be precisely equivalent to a corresponding reduction of wages. But it was not easy to effect an adjustment in accordance with either of the plans suggested. In consequence continued to work up to the full capacity of his means, reducing wages to match in some degree at least the declension in the market. This led to formidable strikes, under one of which coal advanced temporarily full three dollars a ton without putting up wages a dime.

This season strikes, involving thousands of men, have occurred in Schuylkill, Carbon and Luzerne counties, continuing several weeks. The proprietors could not pay the wages demanded without heavy loss, and wisely preferred to stand still. At length the miners seemed to comprehend that the owners could not so regulate the market as to determine prices, but were constrained to sell at the best rates they could obtain. They went to work at the rates originally offered, submitting to the loss of many weeks of valuable time.

No strike has happened this year on the part of the miners employed by the four or five heavy New York Companies operating in Luzerne county. The rule of those Companies is to graduate wages to the value of the coal in market; to do this every three months; and not to yield to strikes, no matter how formidable or long continued. Having demonstrated they will not depart from this rule, even if they should be compelled to stand idle the year round, and that they will pay voluntarily in proportion to what they get, they are in not much danger of interruptions by strikes.

The general tendency of prices in all departments of business is downward. This is the result of natural laws over which neither proprietors nor workmen, nor both combined have much control. Prices have been too high for the common good. Paper money, unless resting on a specie basis, is not a measure of value, and cannot be made such; and hence nominal values have been out of all proportion to actual values. This cannot last, and would be utterly damaging if it could. Prices will go still lower before autumn, and combinations to arrest this tendency will be unavailing. Such combinations may, indeed, protract the period of doubt and uncertainty; may create spasmodic fluctuations; may aggravate all the evils incidental to a return to a sound financial basis; and may precipitate a general crisis by which all classes shall be involved in incalculable calamities; but they cannot compel destiny. Proprietors have entered into combinations to maintain the prices of products, and have resorted to various expedients to give efficacy to these schemes. Temporary results have been produced; but the laws of trade have simply been impeded; not abrogated. If combinations could avail to keep up rates the diminutions recently submitted to would not have occurred. Indeed, the loss sustained in defiance of combinations and monopolising show the perils of such attempts, and that in the great sweep of affairs men are drawn along by irresistible and unseen forces.

THE LOBBY.

Mr. GEORGE WILKES, renowned for his knowledge of animals, has extended his researches and delineations to the New York Legislature and its Lobby. In connection with several other gentlemen he applied for an act incorporating a Lower California Company, with powers similar in kind and degree to those conferred by the British Parliament on the Hudson Bay Company. Not the slightest objection was made to the principles or details embodied in the bill. Members of both Houses and the Lobby expressed a cordial approval of the enterprise, but still no progress was accomplished. At length a demand was made for stock of the Company to be distributed among the promoters of the bill in the Legislature and Lobby. This demand was increased until it amounted to $500,000 in stock. As neither the stock nor a promise of it was given the bill did not budge. After waiting seventy days a bill containing the same provisions was introduced to the New Jersey Legislature, and speedily passed. As soon as this was known word was telegraphed to Albany that the passage of the bill there pending was not desired, as legislative authority had been obtained elsewhere. The Lobby and the Legislature did not comprehend this flank movement; and in their trepidation, instead of letting the bill go by default, as requested, instantly took it up and rushed it through both branches, and sent it up to the Governor for approval. Instead of getting one bill, and paying half a million dollars for it, Mr. WILKES and his associates got two bills for nothing.

This is an unusual revelation to the general public, but not to men who have had occasion to watch closely proceedings in legislative assemblies. It is safe to affirm that no bill suspected of "having money in it," that is, authorizing an enterprise likely to be remunerative, gets through without being subjected to assessments in the way narrated or in payment down in cash. Nor is legislative speculation confined to exacting fees for the passage of laws. Quite as often votes are sold to defeat meritorious bills, because they come in competition with schemes already completed or in embryo.

This sort of corruption has gone so far as so raise serious questions in the minds of many men as to how far free government can stand this strain. If corruption was exceptional there would be hope. But it is the rule, rather than the exception, and becomes more exacting and unblushing from year to year. One party is just as deep in it as the other, in proportion to numbers; or, rather, in most of the middle States, the Democrats manifest the most shameless profigacy. Being in the minority, they borrow additional impunity from their comparative lack of responsibility. That this condition of affairs is to be tolerated, no one will pretend. A remedy must be found for it or the people will be constrained to seek refuge under a monarchy from an evil too grievous to be borne.

ILLINOIS probably witnessed the last execution for high crimes within her. On Friday last John Guedel was hanged at Belleville for the murder of Adam Zimmerman, in 1865. On the scaffold the wretched man made use of the following language: "If the blood of Adam Zimmerman had ever stained his hands, or if he had ever struck him or seen his blood, he hoped the Almighty God would throw him into the lowest pit of hell. He never thought he would come to this end, trusting so much in God as he did, for he had been in the habit of praying to God six times a day for over thirty years." It will be remembered that at the recent session of the Illinois Legislature the juries in capital crimes were left to determine whether the punishment of the culprit should be death or imprisonment. Hence it is quite probable that no more executions will take place in that State.

THE conscience fund of the Treasury Department continues to increase, and it is a noticeable fact that the heavy swindlers are commencing to make restitution. It seems that conscience makes slow work upon the plunderers of large amounts, but finally brings them to the stool of repentance. The last thieves heard from were Cincinnatians.

THE telegraph informs us that the trial of the traitor Jefferson Davis will hardly take place, as announced, on Monday next, in Richmond, but will be further postponed. It is quite probable that he will be admitted to bail, against which proceeding the people will now hardly object.

CHICAGO is a bad place for dogs. Nearly six thousand have been destroyed within the past few weeks, by order of the city authorities.

THE running of street cars on Sunday was commenced in Baltimore on Sunday last.

—Suit will be commenced soon in the United States Supreme Court, between the States of Virginia and West Virginia, concerning the ownership of Berkely and Jefferson counties, in the Old Dominion. These counties are a border between the two States, and there seems to be some question as to where they belong.

Important Law Suit Decided—An Evansville Mercantile House and a Cincinnati Merchant Involved.

At Evansville, Indiana, on the 16th ult., a very important suit was decided—important not only on account of the amount involved, (about fifteen thousand dollars,) but also from the fact that it carries nearly forty other cases. Last fall the wholesale grocery house of Oberdafer & Co. became involved, and at the instance of the creditors the Sheriff of this county attached the whole concern. At this juncture Herman Levy, a wealthy merchant of Cincinnati, stepped in and claimed the property, including the notes and accounts, averring that he had bought the whole concern for twenty-one thousand dollars.

Oberdafer & Co. were indebted to the house of Levy in the sum of $2,880, and to save this paltry sum, Levy, as he avers, without consulting his partners, invested over $20,000 in a poor stock of goods and a large amount of doubtful debts, scattered over four States, not even taking time to inquire if the accounts and notes were good. He immediately turned the whole matter over to the care and control of a clothing merchant, a brother-in-law of Oberdafer, and gave Oberdafer his notes for less than $15,000, which notes were immediately transferred to another brother-in-law of Oberdafer. At the same time Levy assumed liabilities for Oberdafer out of pure friendship, to twice the amount of the latter's indebtedness to the firm of Levy & Co., and when the sheriff attached the goods for the benefit of other creditors, Levy replevined them. The defense set up was that the sale was fraudulent and a sham. The case was tried before the court, and Judge Parrot, in a learned and elaborate decision, rendered judgment for the defendant. Sheriff Darling ordered the goods to be returned, and estimated that they were of the value of $14,000.

—Various co-operative movements among journeymen of different trades are announced from New York. These journeymen are setting up shops and manufacturing on their own account, without the agency of employers. The steam boiler makers, the hatters, the glass blowers and cutters, and the bakers, all have co-operative shops in process of formation. Co-operative movements among other workmen have previously been announced. It is announced that the coachmakers of New York, who struck to prevent a reduction of wages, have generally succeeded. The carpenters of New York are now all at work—good hands getting $4 a day without difficulty. The Laborers' Union of New York has determined to demand $3 a day on May 1st. The tailors in one New York shop recently struck for increased wages, but, not being followed by those in other shops, have abandoned the strike. The working men of New York are getting anxious about the Eight-hour law recently passed by the Legislature, but to which Governor Fenton has not yet affixed his signature.

A FRENCH GENIUS, says the Cincinnati *Commercial*, has invented a method for cleaning the outside of buildings. With a certain chemical preparation combined with jets of steam, he scours the exterior of brick or stone structures, making them look as good as new. Cincinnati, with its grimy atmosphere, could give constant employment to such an invention. Our freestone has native tints of rare softness and beauty, but a few years' smoking disguises and disfigures it. To paint it is a sort of profanation. The news of this French process, therefore, is very good news for this city, and all others that burn bituminous coal.

CONVINCING.

FULTON, Oswego Co., July, 1866.
MESSRS. HOSTETTER & SMITH—Gentlemen: I have been severely afflicted with paralysis of the stomach, and even given up by several eminent physicians. I have tried several remedies of a tonic and stimulating nature, but without any good result. Some three or four months ago I was induced to try your STOMACH BITTERS, and have used about seven or eight bottles with a decided benefit. My health is greatly improved; and I consider your bitters the only efficacious remedy of their kind in the market. If used as directed, they will always prove a sovereign remedy to those afflicted with dyspepsia or other diseases of a like nature.
Respectfully yours, LYMAN MUDGE.

HASTINGS, Dakota Co., Minn., Aug., 1866.
MESSRS. HOSTETTER & SMITH, Pittsburgh, Pa.—Gentlemen: Have sold your BITTERS ever since they were brought out, and consider them the best among the many before the public. Those brought out since the tax has been imposed on spirits are *trash*. I never recommend them. Respectfully and truly yours,
H. J. MARVIN.

COLON, St. Joseph Co., Mich., July 31, 1866.
MESSRS. HOSTETTER & SMITH—Gentlemen: I consider your BITTERS a sovereign balm for a thousand ails. Yours truly,
D. C. REYNOLDS, M. D.

PINUS CANADENSIS.

A tree which is abundant in Canada, Nova Scotia, and the more northern parts of the New England States, and is also found in the elevated and mountainous regions of the Middle States, and abounds in medicinal virtues. Dr. Swett, of Boston, has prepared a medicine from the sweet inside bark of the pine tree, called POLAND'S WHITE PINE COMPOUND, which is one of rare value in all debilitated states of the kidneys. It acts like a charm in all diseases of mucous membranes, enabling them to regain their lost tone and energy. It will be found well adapted to all those diseases, where Buchu has been tried and failed. It is likewise well suited to chronic coughs, and an infallible specific for old and debilitated cases of asthma. Many persons who at first only took a bottle of this medicine, to try, afterwards came back and got a dozen, or half dozen, which effected radical cures of diseases of the bladder and kidneys of years standing.

Diabetes, a disease that has been looked upon as among the incurables, is immediately relieved by it. Notice the certificate of Asa Goodnur, published some time ago.

The *United States Dispensatory*, speaking of the pine, says: "It is prescribed in leucorrhœa, gleet, and other diseases of the urinary passages; in piles and chronic inflammation or ulceration of the bowels, in chronic catarrhal affections, and in various forms of rheumatism." It is exceedingly valuable in all gravelly affections, bloody urine, and where there is red and white sediment. It can be taken without interruption to one's usual avocations; and instead of sickening, produces a bracing, healthy power of endurance and vigor. Price, $1 per bottle; six for $5.
Ask for POLAND'S WHITE PINE COMPOUND. For sale by the gross, dozen or single bottle, at DR. KEYSER'S Great Medicine Store, 140 Wood street. ap20

AUCTION SALES.

GREAT AUCTION SALE OF

CARRIAGES,

AT

SHAFFER'S

Bazaar and Carriage Repository,

DIAMOND STREET, NEAR LIBERTY,

On Wednesday, May 1, 1867.

Every person in the city or vicinity in need of anything in the line of Buggies, Family Barouches, Buck Wagons, Jagger Wagons, or any other light vehicle, should make it a point to be on hand. The sale will be without reserve, and as the vehicles are of the very best and most finished manufacture, there can be no mistake in buying any of them. Mr. Shaffer's establishment is well known, and the many who have, during years past, purchased from him, have always been more than satisfied with them. He has on hand a very large stock of all kinds of light vehicles, all of his own manufacture, which are without doubt equal to the very best in the country. We therefore advise an inspection of this splendid stock, feeling sure that it will give satisfaction. Any of the stock can be bought at a great reduction on former prices. A Sad Life History—Gone at Last.

A day or two since a coroner's jury held an inquest in the city of Louisville upon the body of an abandoned woman named Kate Carrigan, who was strangled to death by falling from a fence, upon which a portion of her wearing apparel had caught. The wretched woman was in a state of beastly intoxication at the time, otherwise she could have disengaged her garments and suffered no harm whatever.

A few months ago this woman was a frequent delinquent at the bar of the Recorder's Court in this city, being arrested almost weekly in some of the low dens of Smoky Row, where, under the influence of liquor, she had become reckless and uproarious. She had once been a beautiful girl, and the lineaments of a most fascinating loveliness were never effaced from her countenance, although she sank repeatedly into the depths of drunkenness and dissipation seldom seconded by fellow-sisters, among whom she ranked lowest of the low. Amidst all the excesses to which this poor girl was addicted, her soft blue eyes never lost their loveliness, and we remember more than once to have seen unfeeling men look upon her with saddened faces, at thoughts of what she once was, as they beheld her pale and wretched at the bar of the Police Court.

Kate Carrigan was once an accomplished and respected young lady. We recall a scrap or two of the history of this poor female, which reads a sad lesson. She was the only daughter of wealthy parents, a Virginian by birth, and at the age of fourteen was left fatherless. Two years later she was seduced by some fiend in human shape, and a few weeks after, in a fit of remorse which could not have been far from actual insanity, abandoned a luxurious home and plunged into the wildest vortex of dissipation. She wandered from city to city, sinking lower and lower, and about a year after the close of the war came to Nashville. From this point her broken-hearted mother heard the first news of her erring daughter, and sent an uncle to bring home the lost child. He was unsuccessful, is all that we know. The poor girl afterward went to Louisville, and the end we have already seen.

Oh cursed and broken life, sad and inexplicable! Oh blackened and filth begrimmed spirit! a wail of bitter anguish runs through the annals of thy short earth history. A bit of charnel house clay in a rough pine coffin, above which is heaped the rude earth of a pauper's grave, is all that remains to tell of thy career in this dark, cruel world.

A year and a-half ago the mother, heart-broken and despairing, lived isolated and alone, sorrowing with an unconsolable sorrow over the angel which had once blessed the desolated household. We know not if she survives the daughter.—*Nashville Press and Times, 24th.*

Curiosities of the Paris Exposition.

The most attractive curiosities at the French Department of the Paris Exposition, is a newly invented cravat pin. Everybody has seen how bells are rung in all the new hotels. Instead of pulling the bell and making it ring by an exertion of mechanical force, we press a small button in the wall; this is connected by an electric wire with a little alarm, the clapper of which keeps on jingling so long as the button is pressed. Lift the hand from the button and the alarm ceases. This principle a French jeweler has adapted to cravat pins. The knob of the pin is of various devices. It is a hare with a tabor, or a drummer with his drum, or a death's head with a loose under jaw, or a dog. Whoever chooses to wear such a pin has connected with it by a wire a small electrical battery in one of his pockets. He puts his hand into his pocket, touches a button there, and off goes the pin. The hare begins to patter on the tabor, the drummer to beat on his drum, the death's head to chatter and roll its horrid eyes, or the dog to bark and snap. When the hand is lifted from the button, instantly all is quiet.

In the British department a curious swan attracts great attention. When we approach the bird we see him floating as if in water, and resting his head behind his wings. He is wound up, and he begins to raise his head with all the proper motions of the swan. He curves his neck in pride; he espies some fish in the water before him; he lowers his head to seize one; he holds it in his beak for an instant; he then swallows it, and, last of all, returns gracefully to rest. The action is very pretty, and calls forth loud applause. The bird, however, is indeed very old, though his plumage may be new. Its mechanism was supposed to have been constructed by a Mr. Weekes, who lived in the reign of George III.; but it was lately discovered that it formed part of the museum of Mr. Cox, a London jeweler, who lived in the reign of George II., and whose collection must have been of some importance, as he obtained an Act of Parliament to enable him to dispose of it by lottery. Mr. Harry Emanuel has put the clock work mechanism in order, and has given the bird a new and beautiful silver plumage; but this is all he had to do with the invention of the toy, which proves so attractive to the multitude, and which seems to eclipse all else in its neighborhood.

Influence of Marriage.

In Edinburgh, a few weeks ago, Dr. Stark read a paper on the influence of marriage on the death-rate of men and women in Scotland.

Dr. Stark based his calculations on the statistics issued by the Registrar General, and brought out results which, in a great measure, he believed, were now presented for the first time. He first showed the result in the case of men. He found that between twenty and twenty-five years of age the death rate of bachelors was exactly double that of married men. As the age increased, the difference in the death rate as against the bachelors ceased, but at every stage of life the advantage was in favor of the married men. From twenty years of age to the close of life the mean age attained by married men was fifty-nine and a half years, while that of bachelors was only forty years; in other words married men had the chance of living nineteen and a half years longer than those who were unmarried. From twenty-five years of age to the close of their life the mean age of married men was sixty and two-tenths, while that of unmarried men was only forty-seven and seven-tenths. Very nearly one-half of all the bachelors who died had not attained thirty years of age. The results, Dr. Stark thought, clearly proved that the married state was the condition of life best fitted for mankind, and that a prolongation of life by that state was a special provision of nature. It was based on fixed laws of life. Married man were generally more regular in their habits, better housed, better cared for, and more under the condition of health and long life. In the case of women, also, the results were in favor of the married as compared with the unmarried, though the difference was not so marked as in the case of the men. Married women died in greater proportion during quinquennial periods—from fifteen to twenty, and twenty-five to thirty, but at a lower rate from thirty to forty. The death-rate, in the case of married women, was higher again between forty and forty-five years of age, but the rate was in their favor again from the latter period to old age.

Storm Signals.

One of the last inventions or projects of science, is a system of storm signals, by which announcements may be made to the people of given localities of the approach of a storm. It is not necessary to apprise farmers of the immense loss sustained during harvest, by the sudden approach of a storm of hail and rain. Entire crops are frequently destroyed by these unlooked-for calamities, the effect of which, had the farmer time to prepare, might, in many cases, be averted. What is now proposed is, that when a storm commences in any part of the country, and is traveling in a certain direction, or spreading in many directions, the first telegraph station over which it passes should send the news instantly to all the telegraph stations at county seats, hundreds of miles in advance in the direction that the storm is traveling. At each of these county seats a cannon might be kept ready, and as soon as the news is received of an approaching storm, it is to be fired three times at intervals of two minutes if it is a hurricane; at intervals of five minutes if the storm is traveling rapidly, and in intervals of ten minutes if traveling slowly. As a cannon can be heard distinctly from fifteen to twenty miles in all directions, by firing one at each county seat, the farmers for hundreds of miles over the whole country would be warned in time to get their grain or hay under cover, or in a situation to shut out the rain.

A company is now being formed in the several States to put this plan, by arrangements with county officials, into practical operation. It looks feasible, and if properly managed, will save millions of dollars in crops usually damaged by rain during harvest.—*Harrisburg Telegraph.*

Twice Married to the Same Woman.

It frequently happens that a man is twice married; but it is not usual for the man to be twice married to the same woman. Such a case, however, really occurred not long since in Memphis. A surgeon in the rebel army, after serving until the close of the struggle, returned to his home near Hopefield, Arkansas, to find his house burned and his wife gone. Unable, after a long search, to find the latter, and believing she had wilfully abandoned him, he procured a divorce, and returned to Hopefield to practice his profession. A few weeks ago he received word that his wife was in West Tennessee, and that she was still faithful to him, but had sought the home of a friend after their house was burned down. A correspondence ensued, only one result was possible; and last Tuesday the former husband and wife met at the Commercial Hotel in Memphis, and were formally remarried.

—A singular duel has recently taken place at Berlin between a journeyman silversmith and another artisan. The arms selected were a bottle of sulphuric acid. The arrangement was that whichever of the two adversaries threw the lowest with dice should swallow the contents of the fatal vial. Chance favored the silversmith, who immediately poured out a glass of liquor, and handed it to his adversary, who unhesitatingly drank off the liquid, but to the astonishment of his antagonist, instead of falling senseless, smacked his lips and asked for another glass. The seconds had acted on the sensible idea of substituting arrack for the corrosive fluid. The affair terminated in a reconciliation.

—Jos. P. Kent, a railroad conductor, and Miss Lou. Rogers, a $50,000 heiress in prospective, eloped from Springfield, Illinois, last week, and arrived at St. Louis at 11 P. M., intending there to have the knot tied. The loving couple, however, stepped from the cars into the custody of the Chief of Police, who had been notified by telegraph. The lovers were consigned to separate cells in the calaboose, and were not released until the unrelenting parents of the girl arrived next day, and compelled her to return home with them.

—The value of the Queen's portrait presented to Mr. Peabody is $50,000.

Concentrated Fluid Extract Sarsaparilla

Eradicates ERUPTIVE and ULCERATIVE DISEASES of the THROAT, NOSE, EYES, EYELIDS, SCALP and SKIN,

Which so disfigure the appearance, PURGING the evil effects of mercury and removing all taints, the remnants of DISEASES, hereditary or otherwise, and is taken by ADULTS and CHILDREN with perfect safety.

TWO TABLE-SPOONFULS of the Extract of Sarsaparilla, added to a pint of water, is equal to the Lisbon Diet Drink, and one bottle is equal to a gallon of the Syrup of Sarsaparilla, or the decoctions as usually made.

AN INTERESTING LETTER is published in the Medico-Chirurgical Review, on the subject of the Extract of Sarsaparilla in certain affections, by Benjamin Travers, F. R. S., &c. Speaking of those diseases, and diseases arising from the excess of mercury, he states *that no remedy is equal to the Extract of Sarsaparilla; its power is extraordinary, more so than any other drug I am acquainted with. It is, in the strictest sense, a tonic with this invaluable attribute, that it is applicable to a state of the system so sunken, and yet so irritable as renders other substances of the tonic class unavailable or injurious.*

ORPHANS' COURT SALE,

Of Valuable Property in the City of Pittsburgh.

THE UNDERSIGNED, in pursuance of an order of the Orphans' Court of Allegheny county, Pa., will offer at public sale, on the premises, in the City of Pittsburgh, on SATURDAY, the 11th day of May, 1867, at 10 o'clock a. m., the following very valuable lots, to wit: 1st. A lot on the corner of Washington and Fountain streets, fronting on Washington street about 122 feet and on Fountain street about 77 feet. 2d. A triangular lot adjoining the above on Washington street, having a front of about 113 feet. 3d. A lot adjoining the lot last above mentioned, having a front on Washington street of about 100 feet, and extending back, preserving the same width, along Prospect street, about 50 feet. On each of said lots there are certain dwelling houses and other improvements, but they are valuable chiefly as lots for building purposes. They will be sold separately or together, as purchasers may desire.

TERMS OF SALE—One-third at confirmation of sale, and the balance in one or two years, with interest, secured by bond and mortgage on the premises.

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, April 30, 1867.

The New York stock quotations to-day, as reported by Ph. R. Mertz, were as follows: Gold, 135¼; Eighty-one bonds, 110⅝; Five Twenties, 1862, 111; Five Twenties, 1864, 109; Five Twenties, 1865, 109⅝; Consols, 1865, 107⅝; Seven Thirties, first issue, 106⅛; second and third issues, 105⅝; Cleveland & Pittsburgh Railroad, 71⅝; Fort Wayne & Chicago, 95; Erie, 60⅞; Michigan Southern, 68⅝; Chicago and North Western, 35½; Chicago and North Western preferred, 62¼; Chicago and Rock Island, 89; Western Union Telegraph Co., 39⅝; New York Central, 98⅞; Reading, 103.

The market is much excited in shares of the speculative Railroads. Erie, Fort Wayne & Chicago, and North Western, common, and preferred are the strongest, and an advance of 3 to 4 per cent. on either of these stocks is asked for. North Western, in particular, is strong, and heavy purchases are made, even at the advanced figures. The ease in the money market, and the absence of any profitable speculation in gold at the decline, when cash gold is scarce, will induce many holders of railroad shares to double their purchases now advance the market, and, if possible, get get back part of their losses made from October last to January.

Government securities are nearly at the highest point they touched since 1864, and are too high to buy for investment. Gold opened strong at 135⅝, and with a brisk demand to cover "shorts," went up to 136⅛, but subsequently declined to 135⅝ and 135.

James T. Brady & Co., bankers, corner of Fourth and Wood streets, dealers in Government Securities, quote the same in New York to-day as follows:

Gold		135¼
U. S. Sixes 1881		110
5-20's	1862	110
"	1864	109
"	1865	109¼
U. S. Ten-Forties		99½
U. S. Consols 1865		107⅝
August Seven-thirties		106⅛
June "		105⅝
July "		105⅝
Dec., Compounds, 1864		116¾

—National securities continue active. The conversion of 7-30s causes an extensive exchanging of securities, which gives an appearance of activity. But apart from this, there is an unusually active demand from home investors, many of whom are taking their money out of business pending the present depression of trade, and temporarily allowing it to rest in bonds, as paying better interest than commercial enterprises. This tendency of capital is the principal cause of the growing firmness in all the gold bearing bonds. The wide fluctuations in the price of 5-20s at London and Frankfort have had little effect on this side. There is a large accumulation of United States bonds in the London market owing to the realizing tendency at Frankfort, but it is thought that they will not be sent home. The government having temporarily suspended the sale of new 5-20s of 1865, has sold a portion of its receipts of coin to prevent its cash balances from being too heavily drawn down by the purchase of 7-30s.

—The Cleveland and Mahoning Railroad Company announces a dividend of four per cent. on the first paid shares, payable in Cleveland, free of tax, on the 10th of May.

—The increase in speculative movements is attributable in a great degree to an idea that the exchange of compound notes for three per cent. certificates, is an expansion, such as during the rebellion advanced quotations so rapidly. The proposed exchange can have no great effect in expanding prices, but the reason may be seen. No private holder will take these three per cents. in exchange for compound notes while Five Twenties sell at 107¼, and gold sells above 125. The banks will take them to save interest upon the reserve, and be content to make three per cent. instead of six per cent., as at present, and that is the extent of the operation of the substitution. There is no movement of the Treasury, present or prospective, which will add to the volume of the currency, and any temporary accumulation at the commercial centers, causing low rates of interest on demand, in turn stimulating speculation, will be soon followed by higher prices for capital and disasters to speculators who mistake an eddy in the financial current which is still running out, for the returning tide of prosperity. At no time since the close of the rebellion has the Treasury been moving so efficiently in the direction of specie payments by converting short-debt calling for currency, into funded debt maturing eighteen years ahead. Borrowers will do well to bear in mind that every dollar funded is placed where it is made the employer of capital until the maturity of the bond, when it will command money again. The Seven Thirties will all be funded in fifteen months, together with the compound notes, and the department can then turn its attention wholly to the funding of the plain legal-tenders. As that point is approached money will increase in buying power, and commodities, now considered cheap, will be bought at much lower prices, including 6 per cent. gold-bearing bonds.—*N. Y. Tribune.*

—We notice the following item of news in a Washington dispatch:

Official advices have been received at the Treasury Department, which indicate rather a remarkable state of things regarding the grain trade between this country and England, viz: The shipment of no less than 40,000 bushels of wheat from Liverpool on the 6th and 9th instants, brought 2430 bushels. The City of Baltimore, which arrived at New York on Wednesday, brought 10,000 bushels. The steamship Queen, of the National Navigation Line, which left Liverpool on the 10th, also took 22,291 bushels as part of her cargo. These five steamers sailed within seven days. This state of things naturally attracts much attention.

New York Financial Matters.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, April 30.—The money market is without any new feature. Gold is weak under an advance in cotton and bonds in Europe. Governments active and higher, and early in the day closed quiet, though firm. Registered, '81, 110@114, coupon, '81, 110⅝@110½; 5-20s registered, '61, 105⅛@105⅝; 5-20 coupons, '64, 109@109¼; do. '62, 111@111⅛; 10-40 coupons, 98⅞@99; August 7-30s, 106⅛@106¼; June, do., 105⅝@105⅝. The stock list opened buoyant and higher and continued lively during the day: Erie, Hudson, Fort Wayne and Northwestern are the most active stocks. The closing quotations reported by Wm. Heath at 5:30 P. M., are: American gold, 135⅛; Ohio Certificates 24¼@24¾; Canton, 44⅛@45; Cumberland, 29@32; Quicksilver, 29⅛@29⅝; Mariposa preferred, 29@29¼; Western Union Telegraph, 40⅛@41; New York Central, 98⅝@98⅞; Erie, 64@64⅛; Hudson, 98¼; Reading, 103⅞@104; Michigan Southern, 69⅝@69⅞; Illinois Central, 113¾; Pittsburgh, 72⅛@73; Toledo, 112⅛@113⅝; Rock Island, 93⅝@93⅞; Northwestern, 35½@35¾; do preferred, 61⅛@61⅝; Fort Wayne, 95⅛@95¼; Pacific Mail, 127⅛; Atlantic Mail, 93@93⅛.

Border State bonds higher on Missouri's; otherwise lower; Tennessee extra coupons, 62; new Tennessee's 59¼; North Carolina's, 46¼; Missouri's, 95⅝. Hannibal and St. Joseph bonds 80¼@80½. Pacific bonds 95¼@95⅝. Steamship shares firm. Coal shares steady. Miscellaneous shares heavy. The Mining market is a little more active in several instances, the chief feature being Corydon, which sold freely from 774 to 775. Alameda rose to 930. Sensenderfer sold at 950. Smith & Parmlee lower, and ranged from 430@440. Quartz Hill dull at 205@210. Among the low-priced shares New York Central was the feature, and rose 10.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, April 30, 1867.

The produce markets have been rather dull this week thus far, the transactions in most of the leading commodities being considerably restricted, while so far as prices are concerned, there has been no material changes worthy of special notice. The fact that some of our rolling mills have resumed operations will probably create a little better feeling in commercial circles, but as the season is pretty well advanced, it is supposed that the resumption will only be temporary, the main object of the mill owners, from all that we can learn, being to fill whatever orders they have on hand, and work up stocks.

GRAIN—As there is little or no stock of Wheat in this market, we have no sales to report. Corn is steady, and prime Yellow may be quoted at $1,08 to $1,10—sale of 100 bush at $1,08. Oats quiet and unchanged—sale of 1 car, to go east, at 65, delivered; we continue to quote at 60c to 62, on wharf and track. Sale of 1 car prime Barley at $1,22, delivered. Rye is quotable at $155 to $1,60 per bush.

FLOUR—Is firm, with a moderate local demand, but prices have undergone no quotable change. We continue to quote at $14,50 to $15 for good to choice Spring Wheat; $15 to $16 for Winter Wheat, and $18 to $19 for fancy brands. Rye Flour is firm at $9,50.

PROVISIONS—There is a fair jobbing demand for Bacon, and we can report regular sales at 9½ to 10c for Shoulders; 11½ to 12½ for Ribbed and Clear Sides; 14 for Plain Hams; 15½ to 15¾c for Plain Sugar Cured, and 16½ to 16¾c for Canvassed. Dried Beef, 23c. Lard, 13c to 13¼, and Mess Pork, $23 to $23,50 per barrel.

SEEDS—Cloverseed is dull, and there are no regular prices. Flaxseed is in steady demand at $3. Timothy Seed is quiet and unchanged.

BUTTER—Is in good supply and a little dull but unchanged—regular sales at 25 to 30c, for good to choice fresh Roll.

EGGS—Quiet but firm at 15 to 16c—some dealers refuse to sell at these figures, anticipating a falling off in the arrivals, and better prices.

GREEN APPLES—Quiet and irregular; sales reported all the way from $3 to $5, for common to choice.

POTATOES—Dull, and with a supply considerably in excess of the demand, prices are tending downward. Small sales of prime Peach Blows, in store, at 70c—sales on wharf at 65.

HAY—Is quiet and unchanged. Prime Hay is in fair demand, while common is very dull.

OIL—Lard is in steady demand, with regular sales at 90 cents for No. 2, and $1,10 for No. 1.

DRIED FRUIT—Very dull and unchanged; small sales at 8½c to 9c for Apples, and 14c to 18c for Peaches.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, April 30, 1867.

CRUDE—The market continues dull but firm, with but little prospect at present of any immediate improvement. Until there is a decline at Oil City, it is not reasonable to expect any further decline here, and while, as we are assured in the case, Cleveland buyers are "pitching in" pretty freely at the first named point, it is not to be supposed that there will be any depreciation up there. Another fact to be taken into consideration is, that our refiners cannot afford to pay any further advance here without entailing a positive loss, and eastern dealers, strange as it may appear, instead of being willing to buy at present prices, are insisting on further concessions. The market is in a very bad condition at present, and we are of the opinion that those who bought pretty largely on speculation at prices considerably above those prevailing now, will begin to feel a little "shaky." The following sales were reported: 2000 bbls for present delivery, at 6¼; 1000 at 6½, bbls returned; also, 2000 bbls to be delivered in April, 1868, on private terms—this is certainly what might be called going into the "misty future," selling oil twelve months ahead.

REFINED—We can report a sale of a five hundred bbl "call" at 28⅝ $1 per bbl margin put up by buyer; also, a one thousand barrel "call," on same conditions and price. The market continues dull and unsettled, and under the influence of unfavorable reports from Europe, exporters are disposed to ask for still further concessions. Free oil, also, is dull but unchanged—small sales at 40 to 41c, for standard brands.

ARRIVALS—The following arrivals of oil were reported to-day:

Fisher & Bro	4000	D. M. Edgerton	1401
C. Berringer	1300	Jas. Wilkins	300
Jackson & Bro	550	D. Bly	100

ALLEGHENY CATTLE MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, April 30, 1867.

CATTLE.

The supply of cattle was again light this week, reaching only about five hundred, but as the demand was restricted almost wholly to supplying the immediate wants of butchers, the market ruled rather quiet, though prices were well sustained—prime to extra retailing cattle sold at 8 to 9c, and, possibly, a few may have brought 9¼c, or even 9½c. The great proportion of the cattle, as has been the case for some time past, came from Chicago, there being, so far as we can learn, but one car load from Ohio, and with this exception, all the cattle on sale were in the hands of regular dealers. There is a continued good demand for stockers, and all that was offered found buyers at prices ranging from 5 to 6½c, according to quality and condition.

REPORTED SALES OF CATTLE.

Blackstock & Hazlewood sold 20 head to Myers & Needy at 8,65, and retailed 32 head at 8 to 9. J. C. Dolan retailed 15 head at 8½ to 8,95. Glass & Lafferty 31 head good Illinois steers at 8½ to 9; 19 head fairish cattle at 7½ to 8c, and 28 head stockers at 5,75 to 6,40. H. Martin sold 13 head of good Ohio cattle at 8 to 8¾. McCallister & Carr 36 head at 8 to 8¾. Greenwald & Kahn sold 16 head of prime fat cattle to James Aull at 8¾, and retailed about 90 head at 7½ to 9. Merrick & Doud sold 2 car loads to Haas & Rothchilds at $169 profit. Marks & Traurman report having retailed 85 head at 8½ to 9. Kraus & Haas 53 head at 7,50 to 9. Katz 26 head at 4 to 8. Verner & Hartman 17 head; Myers & Needy, 65 head, and L. Rothchilds, 23 head.

SHEEP.

There was a very slim supply of Sheep and good retailing grades, had there been any such on sale, would doubtless have sold readily at stiff prices. Good clipped Sheep may be quoted at 7 to 7½c, and wooled at 8 to 8½. Cook sold Slayline 55 head, averaging 95 lbs, at 6—this was the only sale we had reported.

HOGS.

The demand for this class of stock continues light, which is always the case at this season of the year, as people generally drop off pork and take to eating mutton when the weather begins to get warm. We quote in a retail way at 7 to 8½, gross, according to quality and condition.

New York Produce Market.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, April 30.—Cotton less active and 1c lower; sales of 1,000 bales of middling uplands at 29c. Cut meats steady; sales of 240 packages, at 8⅞@9⅞; for shoulders and 12@14¼c for hams. Lard heavy; sales of 1,300 barrels, at 12½@13⅝c. New butter dull, at 11@15c for Ohio. Cheese steady, at 11@19c.

LATEST, 5 P. M.—Flour closed more active and advanced 5@10c in medium grades. Wheat is firm with an upward tendency; No. 2 spring, $2,65@2,75; and No. 1 at $2,85@2,93. Rye is firm at $1,56@1,57 for western. Barley is active and 1@2c better. Oats is firm at 95@95½c for western. Corn is firm at $1,37 in store, and $1,39 afloat, for prime old shipping mixed western. Pork steady; New Mess, $22,62½ cash was bid and $22,70 asked; $22,70 regular, bid, and $22,75 asked; for buyers' option for May, $23 was bid, and $23,10 asked. Beef is firm and in fair demand. Cut meats are dull and without any change. Bacon is firm at 10⅛@10⅝c for Cumberland middles, and 12¼c for short clear. Lard is steady at 13@14c for fair to prime steam, and 13@13½c for kettle rendered.

New York Dry Goods Market.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, April 30.—The weather is unfavorable for any active trade, with a limited business doing at steady rates. Unbleached Muslins, best makes, 20, and seconds, 19½. Bleached is unchanged. Prints do. Delaines, 23, but inferior patterns sold down to 19½. Spool thread is offered at a slight concession; Clark's, 1,05 per dozen.

St. Louis Market.

[By Telegraph to the Pittsburgh Gazette.]

ST. LOUIS, April 30.—Tobacco dull and heavy. Cotton advanced to 28c for middling. Flour quiet and business small, but prices are unchanged. Wheat—buyers stood off, and the market is very dull and unchanged. Corn opened tolerably firm, but closed weak; mixed, $1,07@1,09; yellow, $1,08@1,10; white, $1,10@1,12—latter for very choice. Oats firm but inactive at 84@86c. Barley dull at $1,15 for good spring. Rye dull; $1,40@1,42½ for prime. RIVER NEWS.

The river continues to recede slowly at this point, with scant seven feet in the channel by the Allegheny marks last evening. At Oil City, heavy rains are reported to have fallen on Monday night, and another rise in the Allegheny may be expected soon. Here, the weather was cloudy and sultry yesterday, with every appearance of more rain.

Business continues dull at the landing, the offerings of freight for all points being limited, and another bad feature for boatmen is the fact that the competition is so strong, that prices have been cut down to almost nothing. As our rolling mills have again started up, it is probable that there will be a considerable amount of iron and nails ready for shipment within the next week or so.

The Ida Rees has arrived at the landing from the dock, where she has been undergoing repairs, and will load in turn for Cincinnati and Louisville after the Minnie.

The Echo arrived from Oil City, and the Ida Rees No. 2 left for that point last evening.

The arrivals include the Spray, from Portsmouth; Wild Duck, from St. Louis, and the Argosy, from Cincinnati. There are no boats due for the next few days. The Kenton, from New Orleans, and the Glendale and Lorena, from St. Louis, are en route for this port.

The Glasgow, for St. Louis, with a very good trip, apparently, was the only transient departure.

The Bellevernon, Capt. J. J. Darragh, is announced for St. Louis, and the Minnie, Capt. Shaw, is up for Cincinnati and Louisville. These are both good boats.

The Argosy, Capt. Vandergrift, with Mr. W. H. Scott in the office, is the regular packet for Cincinnati to-day, leaving promptly at noon. The Argosy is a staunch, prompt and reliable steamer, and deserves, as she receives, the patronage of our Pittsburgh shippers.

The Armenia, Capt. A. C. McCallum, with Mr. A. McCallum, Jr., in the office, is announced to leave for the Upper Mississippi on Saturday.

The Columbia and Importer passed over the falls at Louisville on Sunday. The Lorena, deeply laden with iron ore, and the towboat Grand Lake, bound to New Orleans, was at Cairo on Sunday.

The Cairo correspondent of the Cincinnati *Commercial* writes as follows: The Great Republic arrived at noon with a fair cargo, to which she has been adding nearly all the time she has been here. She will leave for New Orleans about noon, with about all she wants. Last night Capt. Donaldson gave a dancing party to the young ladies and gentlemen of our city, and the scene on board during the dancing was truly splendid. The beauty of the ladies, the neat yet simple elegance of their dresses, the bewitching music, the magnificent cabin with its gorgeous chandeliers and exquisite carpets and furniture, formed a picture so charming that it will not soon be forgotten. Six sets of dancers (twenty-four couples) were on the floor each time, except during the alternate intervals when the "round dances" came in.

The following boats were in port at Cincinnati on Sunday: W. F. Curtis, Major Anderson, America, Alice Dean, Golden Era, Wauanita, Champion, Lawrence, John W. Garrett, R. R. Hudson, Melnotte, Augie Saxon, Sherman, Havana, Silver Cloud No. 2, Emma Floyd, Leonidas, John H. Groesbeck, Messenger, Bertha, Clifton, Armadillo, Darling, Magnolia.

The following dispatch was received in Cincinnati on Saturday, from Capt. Marratta: "New Orleans, April 27—2:15 p. m.—The Emma No. 3 arrived here yesterday evening, six days out, doing a large way business."

The steamer Milbury, of the defunct Johnsonville packet line, was sold on Tuesday for $10,000, to parties who intend her as a packet between Paducah and points on the Tennessee River.

The St. Louis *Democrat*, of Saturday, says: Captain Cuble informs us that our correspondent at Cairo was mistaken about the Indiana's proportion for carrying troops from Cairo up the Ohio. Capt. Dubie, of the Ruth, proposed to give the Indiana *pro rata* government rates, less ten per cent. for advancing the money, which would leave the Indiana ninety-two cents nett cash per head. The Tom Stevens has been brought to the wharf to receive a trip for the mountains. The Lorena, Capt. Samuel Shuman, went to the "iron pile" last evening to take 300 tons of ore for Pittsburgh, and will leave for Pittsburgh at 4 p. m. The Gallatin, Lilly and Nymph No. 2, bound for Fort Benton, passed Lexington yesterday.

We hear a man in the Eastern States has invented a boiler which he intends having inspectors order boats to be supplied with. The iron of which the boilers are made is so tempered that no safety valve is required. When the steam becomes too dense the iron gives, and as it were, opens its pores till the excess of steam escapes, when they again close.

We copy the following from the New Albany *Ledger*: While the Louisville, Pittsburgh and St. Louis papers are boasting of fast boats, we would remind them of a little fact that may prove of interest. When the J. M. White made her fast run from New Orleans to Cairo, she was presented with a fine pair of horns, to be held by her owners until her time was beaten by another boat, and then to be presented to such boat. These horns were awarded to the A. L. Shotwell, Capt Elliott, after the great run with the Eclipse, she having in that run made the best time from New Orleans to Cairo ever made by a steamboat. Capt. Elliott, when the Shotwell was sunk, took off the horns and placed them in the keeping of William B. Lent (formerly of Lent, South & Shipmen) with orders for him to deliver them to the boat that beat the Shotwell's time from New Orleans to Cairo. The horns are yet in Mr. Lent's possession, and he is ready to present them to any boat entitled to wear them. Now, we would like to see a contest for these famous horns. We hope Capt. Neal, of the Richmond; Capt. Donaldson, of the Great Republic, and Capt. John W. Cannon, of the Robert E. Lee, will make a dash for them with their magnificent boats. If they do, we predict that the Lee will win and wear them in triumph, as the fleetest steamer that ever navigated the Western or Southern Rivers. The gauntlet is thrown down; which of the three above named gentlemen will take it up and enter the lists to contest for the prizes.

MEDICAL.

CONSUMPTION!

It would take a man a lifetime to read the treatises that have been written upon this important subject, and if a sick man were to attempt it he would make himself worse by the reading, and die before he got half through. The symptoms of the disease are, hacking cough, expectoration of matter or pus, pain in one or both lungs, chilliness, burning in the palms of the hands and soles of the feet, exhausting day night sweats, hectic fever, wasting of flesh or marasmus, sometimes expectoration of blood These are the usual outward symptoms, apparent not only to the observing physician, but to the patient's friends. There are, however, more important symptoms than these, which are only made manifest by auscultation and percussion, terms which mean, in a medical sense, thumping and listening, and they are employed outwardly in order to ascertain what is going on inside of the cavity of the chest. The signs or symptoms elicited in this way are almost sure demonstrate the true and exact condition of the respiratory organs. A perfect auscultator can not fail in ascertaining whether the Lungs are acting naturally or not. Hence it is the best method of examining the lungs. Their actual condition once discovered, the appropriate treatment is more rapidly arrived at, and every diseased part more completely under the influence of appropriate remedies. We have long been of the opinion that consumption or decay, or wasting of the bodily strength, was dependent on a depraved state of the blood, which carries, in its course, tuberculous matter, and deposits it in the lungs, or elsewhere in the body, just as calculi or stone is deposited in the bladder, a small particle of which attracts other particles, until it becomes of such offense to the natural functions as to bring on inflammatory action, which action, if it could, would carry it out of the system, and which could have been easily done in the beginning of such disease. Dr. KEYSER'S PECTORAL SYRUP is a complete and perfect cure in the forming stage of lung disease. It acts on the very principle we have stated above, by enabling the securing or carrying off organs to do a double share of work. Waste and repair are easily comprehended, and if the worn out material be carried off, and the renewing material of a proper character, there must be health and ease, the contrary of sickness and disease. In many cases of consumption which have become settled, Dr. Keyser's Pectoral Syrup fails to cure, although it will do good in nearly all. He prepares a medicine called LUNG CURE or PULMONARY RESTORATIVE, which is a great tonic, and strengthens and restores the parts to be renewed, while it dissolves and carries out from the body those particles of worn out or extraneous matter, which only tend to clog or destroy it, by hindering the renewing material being deposited in its proper place.

PULMONARY CONSUMPTION, RESULTING FROM PLEURISY, CURED.

Statement of George Ford, carpenter, of No. 16 Sampson street, Allegheny City:

I took a violent attack of pleurisy, in May, 1866, which left me with a cough lasting all summer, wearing away my strength and gradually undermining my health. During this attack of pleurisy I had several physicians of the highest reputation in the city. After I had partially recovered from the pleurisy, I was advised to go into the country, which I did, and when there I called in a doctor, who told me my left lung was affected, and that if something were not done soon I would die of CONSUMPTION. I continued on from this time until about the middle of June, my cough and lung disease gradually growing worse, and I weaker every day, and almost despairing of ever getting well. In this state of despondency, and knowing the general belief of the incurability of Consumption, and having heard of cures made by DR. KEYSER, and seeing his advertisement in the newspapers, I was induced in October last to call on the Doctor at his office, 120 Penn street, and had him examine my lungs with his "LUNG SOUND." He told me the upper lobe of my left lung was very much diseased, but he thought with great care and the perseverance in the use of his medicines I would get well. At the time I called on Dr. Keyser my pulse was over one hundred and thirty beats in a minute, and I was generally prostrated, and had to cough night and day. I commenced the Doctor's treatment in October, with a feeble, broken constitution, and continued it faithfully until the present time. The Doctor's medicines helped me from the very start, and I could gradually feel myself getting stronger and my cough and expectoration lessening. I have gained greatly in flesh, and consider myself well; all the rattling of my lung has ceased, and my general health is in every way good. All my relatives and friends know of the advanced stage of my disease and my extraordinary recovery. One of the medicines given me by Dr. Keyser was a medicine called LUNG CURE which I took in connection with the other treatment. GEORGE FORD.

PITTSBURGH, March 30, 1867.

ANOTHER CURE OF CONSUMPTION.

STATEMENT OF JOHN G. WIGHAM, OF TURTLE CREEK, ALLEGHENY COUNTY.

I was discharged from the United States army in January, 1866, on account of a wound in the head, from a shell, and a disease which the army physicians pronounced CONSUMPTION. I had a terrible cough and fell away in strength and flesh and was unable to do anything. Shortly after my return from the army, I made application to a physician of my neighborhood and, afterwards, to another in Pittsburgh of high reputation, whose remedies I used faithfully for five months, without any benefit whatever, but rather grew worse, and wasted in flesh and strength every day. In August, 1866, my mother took me to DOCTOR KEYSER, of 120 Penn street, whose skill in such cases like mine had been highly spoken of and put myself under his treatment. The Doctor examined my lungs very carefully with his LUNG SOUND, and told me that my left lung was badly diseased at the upper part, but if I was careful he thought he could cure me by following his directions closely, which I did from that day to this. I gradually improved under Dr. Keyser's medicines from the first week I commenced to take them, and my general health has improved, and my chest, where it was sunk en away, and where it pained me, has become full and strong and free from pain. I can now do a full day's work, and take great pleasure in giving my testimony in favor of Dr. Keyser's treatment and medicines.

JOHN G. WIGHAM,
Turtle Creek.

PITTSBURGH, April 11th, 1867.

A case of five years' standing cured by DR. KEYSER'S PECTORAL SYRUP:

DR. KEYSER:—My wife has been afflicted with a cough and difficulty of breathing for five or six years, which, for several years back, had gradually increased in violence. The complaint has been hereditary, and she had been treated by several physicians without any relief. In this state of her case I procured some of your PECTORAL COUGH SYRUP. I bought the first time a fifty cent bottle, which relieved her very much; I then called and got a dollar bottle, which cured her entirely, and she has now no trace of the former disease, except weakness. I would also state that I used the medicine myself to a cold and cough. The medicine cured me by taking one dose. I express my entire satisfaction with the medicine, and you are at liberty to publish this if you desire to do so.

WM. WILSON,
Alderman, Fifth Ward.

Our son, JAMES PAINTER, some three years ago was afflicted with consumption of the lungs, for which he was discharged from the army. He was examined by four army physicians, who all agreed that he must die with the disease. We brought him to Dr. KEYSER, 140 Wood street, (now 120 Penn street,) who, after sounding his lungs, commenced to treat him, and cured him sound and well. He is now well and has been so for the past three years. Others afflicted in like manner can likewise be cured.

FINANCE AND TRADE,

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, May 1, 1867.

The New York stock quotations to-day, as reported by Ph. R. Mertz, were as follows: Gold, 135¾; Eighty-one bonds, 110½; Five Twenties, 1862, 107⅝; Five Twenties, 1864, 105½; Five Twenties, 1865, 105¾; Consols, 1865, 107½; Seven Thirties, 105⅝; Cleveland & Pittsburgh Railroad, 72¾; Fort Wayne & Chicago, 95¼; Erie, 64; Michigan Southern, 69; Chicago and North Western, 34¾; Chicago and North Western prefrd, 61½@62; Chicago and Rock Island, 89¾; Western Union Telegraph Co., —; New York Central, 99; Reading, 103¾.

Gold opened weak at 135¼, declined to 134¾, advanced to 135¾, and closed dull. Quotations of our securities in London are not quite so favorable as yesterday, which stiffened the premium on gold here; the tendency however, is to lower prices. Governments opened strong, but closed weaker, ex-coupons. The tendency is for lower rates, since the demand for money is quite brisk, and stock speculation absorbs a large amount of lose capital. Railroad shares seemed to have reached their climax this morning, though, for some shares, the closing prices of last evening were barely sustained. Fort Wayne advanced to 95¾, but subsequently went down to 95¼. Erie declined from 65 to about 64, with large short sales, and, no doubt, will go much lower. The heaviest decline is in North Western, common, from 35½ to 34¾. Cleveland & Pittsburgh is strong. It is surprising to find people who sacrificed their stocks a few days ago at the lowest rates, now buying after the market has advanced about 5 per cent. All those who lose money in this manner do deserve nothing better, as it was evident that so sudden an advance in prices will cause heavy sales from parties who wish to realize. Nevertheless, the market may not have reached its highest point, and the decline may only be temporary.

James T. Brady & Co., bankers, corner of Fourth and Wood streets, dealers in Government Securities, quote the same in New York to-day as follows:

—The following letter from the Pittsburgh, Fort Wayne & Chicago Railroad Company to their financial agents in New York City, is highly encouraging. What is here shown of the reduced working expenses of the Road we have reason to believe is true of other of the trunk lines of the country this spring:

PITTSBURGH, April 26, 1867.

DEAR SIR: I notice from statements rendered by the Auditor that the earnings and expenses for the first quarter of the present year, compared with 1866, have been as follows:

	1867.	1866.	Inc.
Earnings	$1,749,587 59	$1,703,131 60	$46,455 99
Expenses	1,234,134 90	1,315,250 30	
Net Earnings	$515,452 69	$387,881 30	$127,571 39
Decrease	$81,115 40		

This is the poorest quarter in the year—earnings being light and expenses heavy. Assuming that we receive no increase in the year in gross earnings, and that the above ratio of decrease in expenses is maintained (and Mr. McCullough thinks it will be exceeded), the aggregate increase of net earnings of the year will be equal to three and one-fourth per cent. on the capital stock. This would give on the present stock fourteen and one half per cent., and on the increased stock twelve per cent. for dividend fund. If there is any increase in gross earnings the dividend fund will, of course, be increased by so much. The best feature, however, of the foregoing statement is the decrease in expenses. The transportation department is beginning to reap the benefit of the improvements and additional conveniences in working the road, which must continue, as additions are made to those already existing.

THOS. D. MESSLER, Ass't President.

—The *Financial Chronicle*, speaking of railway property, says: "A large proportion of the roads represented on the stock exchange have now reached a position in which they could pay regular dividends, were their affairs administered with due prudence and economy. Out of the list of thirty-eight roads, with $350,000,000 capital stock, on the call of the New York Stock Exchange, thirty-one have paid dividends ranging from 7 to 12 per cent. per annum within the last six months; whereas, five years ago not one in four of the roads was making any division of profits among the stockholders. The receipts prove larger than has been generally anticipated; and, while it may be expected that the ultimate general decline in prices must be accompanied with a fall in the rates of freight, yet a concurrent reduction in the working expenses may be relied upon to compensate for the loss of receipts from this cause, and will probably leave the net earnings equal to what they are now."

—The Cincinnati *Commercial*, of Tuesday says: The announcement this morning that Mr. J. R. Morton, banker, had made an assignment, occasioned no little excitement and much regret. Losses made by the reverses in stocks last winter are credited as the cause of his misfortune. No statement as to the condition of his affairs has as yet been placed in the hands of his assignee, Mr. Jos. G. Gibbons, but it is being prepared, and the creditors will in a few days learn the situation. The house has enjoyed good credit here.

—Says the Chicago *Tribune*, of Tuesday: Business in financial circles was very quiet to-day, and in some quarters it was pronounced decidedly dull. The demand for discounts was light, but there was considerable inquiry for renewals by provision operators. The market is, if anything, a shade easier. There is, however no relaxation in the scrutiny of paper, and to none but those who are absolutely entitled to it, is any favor granted. The bank rate is unchanged. In the open market money commands 1½@2 per cent.

PITTSBURGH METAL MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, May 1, 1867.

As the "lock out," for the present at least, seems to have come to an end, and most, if not all of the mills have already, or will within a few days resume operations, there is, as a matter of course, an improvement in the demand for Metal, but the market, as yet, is unsettled and irregular, and, apparently, there are no established prices. Mill owners, as a general thing, are not disposed to buy very freely, preferring rather to hold back, in expectation of a still further decline; and with pretty heavy stocks in yards, holders of metal seem disposed to realize, and some of them, from all that we can learn, are making concessions in order to effect sales, while others, refuse to make any material reduction. Thus matters stand at present. It is thought, however, that the trade will assume a more tangible and regular shape within the next few days, after which we expect to be able to present a pretty good list of sales each week, as usual.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, May 1, 1867.

The general markets were exceedingly dull to-day, which was owing, partially at least, to the inclement condition of the weather, which usually tends to retard out-door business. At best, however, the demand for nearly all of the leading articles of trade has been limited this week, and about the only cheering aspect we have to note is the resumption of business by the majority of our rolling mills.

GRAIN—There is no Wheat in this market, and, consequently, no established quotations. Oats plenty and quiet but unchanged—sale of 1 car at 60c, and small sales at 64@65. Rye is quoted at $1,55 to $1,60. Corn is selling at $1,05 to $1,10 for prime to choice Yellow. Barley is too irregular to quote correctly.

FLOUR—The market continues dull, the demand being very light, but prices are firm and well sustained. We continue to quote at $14,50 to $15 for good to choice Spring Wheat; $15,50@16 for Winter Wheat, and $18 to $19 for fancy brands. Rye Flour is firm at $9,50.

PROVISIONS—Bacon is quiet and unchanged at 9½ to 10c for Shoulders: 11¾ to 12½ for Ribbed and Clear Sides; 14 for Plain Hams; 15½ to 15¾c for Plain Sugar Cured, and 16½ to 16¾c for Canvassed. Dried Beef, 23c. Lard, 13c to 13¾, and Mess Pork, $23 to $23,50 per barrel.

BUTTER—Is in fair demand, but the supply is fully equal to it, and prices remain unchanged—regular sales at 25 to 30c, for good to choice fresh Roll.

EGGS—Steady, with regular sales at 15c to 16c, with a supply equal to the demand.

GREEN APPLES—Dull and unchanged—sales reported all the way from $3 to $5, for common to choice.

POTATOES—Dull, and with a supply considerably in excess of the demand, prices are tending downward. Small sales of prime Peach Blows, in store, at 90c.

OIL—Lard Oil is still quoted at 90 cents for No. 2, and $1,10 for No. 1.

SEEDS—Flaxseed is in steady demand at $3. Clover and Timothy seed dull and unchanged.

DRIED FRUIT—Very dull and unchanged; small sales at 8½c to 9c for Apples, and 14c to 18c for Peaches.

HAY—Is quiet and unchanged.

HIDES—Sale of 150 Dry Flint at 24c.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, May 1, 1867.

CRUDE—The market for crude presents no new characteristics worthy of special notice. The demand is only moderate, while prices have undergone no quotable change, 6¾, on spot, and 7 to 7¼ for May and June. Sales of 1100 and 1200 bbls at 6¾; 150 at 6¾, bbls returned; and 550 (40 gravity) at 7 cts. The general tone of the trade is dullness, in consequence of continued unfavorable reports from the East and Europe, and while buyers are contending for still further concessions, it is not reasonable to suppose that there will be any decline here until the price drops at Oil City. At present prices there is little or no margin for crude dealers, and the same is equally true of our refiners, and one of two things must occur, and that, too, before long, prices must advance here or decline at Oil City.

REFINED—The market for bonded oil continues dull and weak, though prices are nominally unchanged; we continue to quote at 20c for prime light straw to white, on cars here; 21 to 21½ for standard white; 26 for the former, delivered in Philadelphia, and 27 to 27½ for the latter. Sale of one thousand barrels standard white, all the year, buyer's option, at 32, delivered in Philadelphia, and 100 bbls at 21c, free on board cars here. Free oil is quiet and unchanged.

ARRIVALS—The following arrivals of oil were reported to-day:

Fisher & Bro	1600	Brewer & Bruke	425
C. Berringer	1100	R. T. Leech	3000
Jas. Wilkins	50	J. K. Barbour	52
Total			6627

Financial matters in New York.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, May 1.—Money plentiful and Stock Brokers are supplied at 5@6c; and Government Bankers at 3@4 per cent. on call. Sterling exchange firm at close. Gold closed firm at 135¾, under a decline in bonds at Frankfort, and Cotton at Liverpool. Cash gold easier. Loans at 1-16th to flat; no export demand. The Treasury Department commenced to-day to disburse 25,000,000 dollars in coin as interest on Five-twenty bonds; and of this amount about $1,600,000 at this point; $7,000,000 were paid to-day, mostly in gold.

Government securities in good demand and higher in the morning for gold bonds. Market closed less active. The following are the closing prices: Registered of '81, 110 3-4@110¾; Coupons of '81, 110⅞@110 3-4; Five-twenties registered of '62, 105½@105¾; Five-twenty Coupons of '62, 107 1-4@107 3-8; do of '64, 105 1-4@105 3-8; do, January and July, 107⅜@107⅝; Ten-forties registered, 98 3-8@99; Ten-forty Coupons 99@99¼; August Seven-thirties, 106⅛@106 1-4; June Seven-thirties, 105¾@105⅞. Railway speculation opened firm and active, and the bull interest continues to gain strength. Erie was the chief point of interest, and ranged from 64 3-8 to 65⅛. Northwestern preferred run up to 63¼, but reacted to 62⅛. The entire list was higher. The market was steady at the one o'clock board, and all lower after call, Erie falling to 64⅞. The upward movement was resisted by the bears, and at one time a general attack was made on the Railroad List. At the second regular and last open boards the market recovered somewhat from the lowest point, and was firmer at the close. Short interest has undoubtedly been increased to-day, which helps the upward movement in the future.

Wm. Heath & Co. report the following 5:30 P. M. prices: American gold, 135¾; Ohio certificates, 23½@25½; Canton, 43½@44½; Cumberland, 30@33; Quicksilver, 29½@29¾; Mariposa, 8¼; do. preferred, 20¼; New York Central, 98¾@98⅞; Hudson, 96@96½; Reading, 103⅝@103¾; Michigan Southern, 68⅞@68⅞; Illinois Central, 115¾@114½; Pittsburgh, 72@72⅛; Rock Island, 88¾@89; Northwestern, 34¾@35¼; do. preferred, 61¼@61½; Pittsburgh, Fort Wayne and Chicago, 95¼@95¾. In Border State bonds there is more doing: New Tennessee, 61; new North Carolina, 46½; Missouri, 95@95¼. The steamship shares are higer and Atlantic continues the leading feature: Pacific, 128¾. The miscellaneous list is better. Coal shares are quite firm. The mining market is heavy and lower: Corydon declined to 600; Gregory, 880; Columbia, 320; Quartz Hill, 265.

Cincinnati Market.

[By Telegraph to the Pittsburgh Gazette.]

CINCINNATI, May 1.—Flour in fair demand and firm; superfine $12@13; trade brands $14@16; fancy $16@18. Wheat firm and unchanged; No 2 spring $2,90; No 1 do $3—but little sound offered. RIVER NEWS.

The river is again rising at this point, under the influence of heavy rains of Tuesday night and yesterday, and last evening the Allegheny marks showed about seven and a half feet. At Oil City, the Allegheny was rising rapidly yesterday forenoon, and we should not be surprised if there was a swell in the Monongahela, also.

There has been no arrivals aside from the regular packets since our last report, and there are no boats due until about Friday. The Argosy, for Cincinnati, and Spray, for Portsmouth, got off last night. The Spray had a good trip, including two hundred tons of metal for Wheeling. The Argosy would have had a much better trip, had it not been for the inclement weather yesterday forenoon.

The Minnie, Capt. A. H. Shaw, is filling up steadily for Cincinnati and Louisville, and will be ready to leave on Friday—not later than Saturday. The Ida Rees, Capt. Joe Brown, is next in after the Minnie.

The Bellevernon, Capt. J. J. Darragh, jr., is announced for St. Louis, and the Armenia, Capt. A. C. McCallum, is loading for the Upper Mississippi. These are both good boats, and we have no doubt, will leave here with good trips.

We observe that the Louisville *Courier* still has something to say about the Richmond. The reporter of that paper has certainly earned those five hundred dollars, whether he got them or not. By the way, the Captain of the Richmond is not a Louisvillian, having his residence at Madison, Indiana, and it is said that he received his early "bringing up" at Steubenville, Ohio, and served part of his apprenticeship to the engine building in Pittsburgh.

The Cincinnati *Commercial*, of Tuesday, says: The new steamer Peerless, Captain J. H. Williams, will be found at the wharf, from Pittsburgh, this morning, and will return to Pittsburgh to-day. It is the intention of the owners of the Peerless to place her in the Cincinnati and Pittsburgh trade, in conjunction with the Argosy, Captain Lew Vandergrift, leaving here every Tuesday at 12 o'clock. She leaves on her first trip from Cincinnati this morning. The Kate Putnam, from Pittsburgh to St. Louis, with a barge of iron in tow, passed down yesterday. She has altogether, in boat and barge, some 800 tuns.

The same paper makes the following thrust at the Indiana and her "reconstructed" admirers in the South:

J. E. Elan, Mayor of Baton Rouge, Louisiana, recently tendered Capt. R. E. Neal, of the Indiana, wharfage free for one year for his steamer, in consideration of the fact that the Indiana carried, free of charge, five hundred sacks of corn for the destitute of the South. We may add that nearly all steamers leaving Cincinnati for Nashville, Memphis and New Orleans, take, every trip, from two to three hundred sacks of corn for the poor of the South, free of charge. They have already carried over twenty thousand sacks of corn, yet we have not heard that the Mayors either Nashville, Memphis, or New Orleans have even thanked a Cincinnati steamer for her liberality.

Secretary McCullough has issued a circular of date April 10th, calling the attention of those concerned to the treasury circular of 1st November last, which shows forth the liabilities of all vessels and the power of collectors and surveyors to seize and detain them for non-payment of tunnage dues. The Secretary urges that custom officers see that all vessels within their respective districts comply with the requirements of the law as set forth in said circular. In regard to flatboats and barges, he says: "Especial attention is also directed to that class of flatboats and barges which may claim the privilege of transporting coal, oil, and agricultural produce to market, by payment of the special internal revenue tunnage tax, lest they engage in the coasting trade without taking out a license and paying the highest tunnage dues incident thereto, to the detriment of legitimate coasters. For it will be borne in mind that, while regular licensed coasting vessels may engage in such trade without being subject to said special tax, yet vessels having elected to engage under the internal revenue tax are not hereby exempted from payment of the higher tunnage dues as coasters whenever they shall have abandoned the exclusive character and occupation to which said privilege attaches, as shown in the aforesaid circular."

The Memphis *Appeal* says that while Captain John Cannon was on his way from Cairo to Memphis on the Alton some light-fingered thief confiscated all the money the Captain had—some $150. He left his vest in his stateroom while he went to wash.

The river reporter of the St. Louis *Democrat* has never seen the Richmond, or if he has he knows but little about boats. If the Richmond and Great Republic ever come together the Richmond will eclipse the great Pittsburgher.—*Louisville Democrat.*

"Stone walls have ears, and the birds of the air carry the matter" for us. We need not see the Richmond to be familiar with her. She is a very creditable steamboat, but too much puffed. Success is certain for the Republic without a line of puffing.—*St. Louis Democrat.*

The Dubuque *Times* of Friday devotes two columns to the reception of the new steamer Dubuque, procession, speeches, music, &c.
